

Decoding Dyslexia MN

How to help inform legislators about dyslexia in Minnesota
2019

Since Decoding Dyslexia MN's founding, students with dyslexia have been supported by many legislators at the MN Capitol.

Senator Roger Chamberlain, District 38

Senator Chamberlain has actively supported children with dyslexia and struggling readers in Minnesota through bipartisan efforts at the state level. We are grateful for his support!

The current dyslexia bills have a Senate and House File number. The bills initially travel separately through both sides of the Minnesota Legislature.

Current dyslexia bills

Committee Hearings (as of March 5, 2019)

Bills are referred to a committee to be heard.

MN Senate:

[E-12 Finance and Policy Committee](#)

The three bills were heard on Feb. 6th. [Audio available.](#)

They were “laid over and maybe considered for omnibus bill.”

MN House of Representatives:

[Education Policy Committee](#)

HF 1495 and HF 1496 were heard on March 5th. [Archives are here.](#)

HF 1496 does not have a hearing scheduled (as of March 5th).

Many bills do not stand alone. They become part of an omnibus bill. The past dyslexia bills have become part of the education omnibus bills. Once the House and Senate have formed their omnibus bills, a conference committee is formed. The conference committee has to reconcile the House and Senate bills into one bill. Changes to the wording and even deletion of bills can occur during these processes. If the reconciled bill is approved by legislators, then it moves to the Governor to be approved or vetoed.

For more information, see the [Minnesota Legislature's FAQs about bills](#).

Sample Letter

Dear **Senator/Representative XXXXX**,

I am a constituent in your district, and I am writing to ask for your support of dyslexia legislation. Please support bills SF116/HF1495, SF196/HF1494, and SF651/HF1496.

Remove this paragraph and Insert your short personal story here....

For the future of our Minnesota children who struggle with reading or who have been diagnosed with dyslexia, I ask for your support of dyslexia screening, teacher training requirements for dyslexia, and teacher preparation program requirements for dyslexia. With your help, we can work towards closing the achievement gap and providing all students an equitable education! I greatly appreciate your time and support.

Sincerely,
