# Bring Conservation Home

A St. Louis Audubon Society Community Partnership

*To Your*

Native Landscaping 101

Sep 9 | 6:30pm | Larson Park Pavilion

#2 Denver Place, Webster Groves, 63119

**Mitch Leachman**, Executive Director of the St. Louis Audubon Society and Coordinator of the Bring Conservation Home Program, will present a simple overview of how native plants can be used in most any space to create attractive, inspirational and functional replicas of natural habitats, benefiting the animals, the community and yourself. He will define naturescaping, including its benefits, outline the 4 key elements of a functional habitat and provide simple examples of creating those habitat elements in residential spaces.

Email [ccooyne@stlcc.edu](mailto:ccooyne@stlcc.edu) with questions. Light refreshments will be served. Remember to bring your reusable water bottle!
