FORWARD

CHAPTER 1: History of Watershed Planning Efforts & Stakeholder Engagement

1.1 Timeline of Events.....	Pg. 1-1
1.2 Deer Creek Watershed Alliance Stakeholder Engagement.....	Pg. 1-5
1.2.1 Planning Committees.....	Pg. 1-5
1.2.2 Additional Key Partnerships.....	Pg. 1-6

CHAPTER 2: Watershed Data Inventory

2.1 Watershed Description.....	Pg. 2-1
2.2 Terrain.....	Pg. 2-14
2.21 Geology.....	Pg. 2-14
2.22 Soils.....	Pg. 2-14
2.23 Topography.....	Pg. 2-18
2.24 Land Cover.....	Pg. 2-18
2.3 Hydrology.....	Pg. 2-20
2.31 Rainfall & Climate.....	Pg. 2-20
2.32 Riparian Corridor.....	Pg. 2-21
2.33 FEMA Floodplain.....	Pg. 2-22
2.4 Flora and Fauna.....	Pg. 2-22
2.5 Demographic Characteristics.....	Pg. 2-23
2.51 Political Demography.....	Pg. 2-23
2.52 Population.....	Pg. 2-23

2.53 Land Use.....	Pg. 2-24
2.54 Economics.....	Pg. 2-24

CHAPTER 3: ELEMENT A. – Identifying Impairments

3.1 Previous Watershed Assessment Studies and Reports.....	Pg. 3-1
---	----------------

3.2 Water Quality Standards.....	Pg. 3-3
---	----------------

3.21 Designated Uses.....	Pg. 3-3
---------------------------	---------

3.22 Water Quality Criteria.....	Pg. 3-4
----------------------------------	---------

3.23 Antidegradation Policy.....	Pg. 3-4
----------------------------------	---------

3.3 Water Quality Analysis.....	Pg. 3-5
--	----------------

3.31 Bacteria Pollution.....	Pg. 3-5
------------------------------	---------

3.32 Chloride Pollution.....	Pg. 3-6
------------------------------	---------

3.33 Biological Oxygen Demand (B.O.D.).....	Pg. 3-7
---	---------

3.34 Total Suspended Solids, Erosion and Sedimentation.....	Pg. 3-8
---	---------

3.35 Nitrogen and Phosphorous.....	Pg. 3-8
------------------------------------	---------

3.36 Emerging Pollutant-Microplastics.....	Pg. 3-9
--	---------

3.4 Identifying Nonpoint Source Stressors.....	Pg. 3-11
---	-----------------

3.41 Stormwater Runoff.....	Pg. 3-11
-----------------------------	----------

3.42 Channel Straightening and Loss of Riparian Corridor.....	Pg. 3-12
---	----------

3.43 Soil Compaction from Construction Practices.....	Pg. 3-12
---	----------

3.44 Downspout Disconnections.....	Pg. 3-13
------------------------------------	----------

3.45 Yard & Open Space Maintenance Patterns.....	Pg. 3-13
--	----------

3.46 Animal Waste.....	Pg. 3-15
------------------------	----------

3-47 Road Salt.....	Pg. 3-15
---------------------	----------

3.48 Climate Change.....	Pg. 3-16
3.5 Identifying Point Source Stressors- Permitted Facilities.....	Pg. 3-17
3.51 Municipal and Domestic Wastewater Permits.....	Pg. 3-18
3.52 Sanitary Sewer Overflows.....	Pg. 3-18
3.53 Combined Sewer Overflows.....	Pg. 3-18
3.54 Site Specific Industrial and Non-Domestic Wastewater Permits....	Pg. 3-19
3.55 Municipal Separate Storm Sewer System (MS4) Permits.....	Pg. 3-20
3.56 General Wastewater and Non-MS4 Stormwater Permits.....	Pg. 3-20
3.6 Summary of Watershed Impairments, Pollutants, and Indicators.....	Pg. 3-21

CHAPTER 4: ELEMENT B- Estimating Load Reductions

4.1 Watershed and BMP Modeling 2010.....	Pg. 4-1
4.11 Strategy to Apply Models.....	Pg. 4-4
4.12 STEPL (Spreadsheet Tool for Estimating Pollutant Load).....	Pg. 4-5
4.2 Watershed and BMP Modeling 2020.....	Pg. 4-13
4.21 Deer Creek Modeling of E. Coli Load Reduction.....	Pg. 4-13

CHAPTER 5: ELEMENT C. –Management Measures

5.1 Goals for Deer Creek Watershed.....	Pg. 5-1
5.2 NPDES Permit Discharge and Compliance Information.....	Pg. 5-6
5.3 Local Municipality Stormwater Management Plans.....	Pg. 5-7
5.31 City of Brentwood Flood Mitigation Master Plan.....	Pg. 5-7
5.32 City of Clayton Stormwater Master Plan.....	Pg. 5-8

5.33 City of Creve Coeur Stormwater Master Plan.....Pg. 5-8

5.34 City of Frontenac Stormwater Master Plan.....Pg. 5-10

5.35 City of Richmond Heights Stormwater & Sewer Management.....Pg. 5-11

5.4 Identifying Critical Areas.....Pg. 5-11

CHAPTER 6: ELEMENT D. – Technical & Financial Assistance

6.1 Resources for Implementation of Management Measures.....Pg.6 -1

6.2 Technical & Financial Assistance by Organization..... Pg. 6-8

6.3 Financial Assistance for Deer Creek -Additional Resources..... Pg. 6-10

6.4 Directory of Watershed Resources.....Pg. 6-10

CHAPTER 7: ELEMENT E. – Public Info & Education

7.1 Education outreach goals and objectives.....Pg. 7-1

7.2 Targeting the audience.....Pg. 7-2

7.3 Creating a Message.....Pg. 7-2

7.4 Packaging and distributing the message for various audiences.....Pg. 7-3

7.5 Evaluating education & outreach programs.....Pg. 7-4

CHAPTER 8: ELEMENT F. – Schedule

8.1 Timetable.....Pg. 8-1

CHAPTER 9: ELEMENT G. – Milestones

9.1 Goals & Selecting Indicators.....Pg. 9-1

CHAPTER 10: ELEMENT H. - Performance

CHAPTER 11: ELEMENT I - Monitoring

APPENDICES

Chapter 2

Appendix 2-A Bacteria TMDL Deer and Black Creeks

Appendix 2-B Watershed Geology

Chapter 3

Appendix 3-A Stakeholder Areas of Concern

Appendix 3-B Washington University Water Quality Report 2010

Appendix 3-C Analysis of Stream Team Water Quality Data

Chapter 4

Appendix 4-A Chloride Pollution Prevention BMP's & Resources

Appendix 4-B Combined Modeling of E Coli Load Reduction due to BMP Implementation

Chapter 5

Appendix 5-A Evaluation of the Effectiveness of 3 Rain Gardens in the Deer Creek Watershed

Chapter 9

Appendix 9-A Implementation Plan-deercr-and-blackcr-final
