

The Democracy Action Working Group is pleased to invite you to an address by Auckland Councillor Mike Lee –

‘Sea Change’ versus democracy in the Hauraki Gulf

Mike will be speaking on the elements of the Hauraki Gulf Marine Spatial Plan – ‘Sea Change’, that advocate democratic representation on the Hauraki Gulf Forum be replaced by a ‘co-governance’ model.

In an article published in the Gulf News, June 21, Mike writes:

“As an elected politician and a Hauraki Gulf Forum member I will defend myself by telling the people the plain truth as I see it about the troubling elements of this so-called ‘Sea Change’, and about the high stakes power play currently underway over the ownership and control of the Hauraki Gulf.”
