Candidate Statement:

Having worked previously for Senator Edward J. Markey (D-MA), studied politics in college, and campaigned for candidates in local races extensively for the last 10 years, mobilizing democratic voters was something I knew I wanted to continue doing when I moved to Berlin in mid-2019. I have been a youth caucus organizer for democrats abroad Berlin alongside my job in climate tech since early 2020, organizing debate screening parties and phone banking rallies to engage Berlin's under-30 voter community. My mission as GOTV coordinator for the Berlin Chapter would be to make voter mobilization fun and strengthen ties within the community of politically engaged American expats in Berlin. Political issues that motivate me include climate change, racial justice, and gun violence.
