

Many of us know the feeling of walking into our first big DPCA meeting and looking around for a friendly face. Someone to chat with and show you the ropes. Quaide was that face for me.

That first impression of feeling welcome and belonging is vital to the strength of an organisation. And Quaide is absolutely passionate about this organisation—its people and its processes.

He has tirelessly run the COOP and every EMEA country committee has benefited from his labour. Together, we were part of a group that successfully worked to elect a young and diverse delegation for the 2020 National Convention. Finally, one of his most significant actions was his long fight to pass the One Person One Vote (1p1v) DPCA Charter amendment. Since it's passage, it has increased the diversity of our body and made our organisation more democratic. Quaide was the force that made it happen.

Quaide is a vital voice in DA and is respected and listened to because over the years he has given so much to the organisation and—with his passion, humour, commitment, and persistence—has made DA a better place in the process.

I am happy to wholeheartedly endorse Quaide Williams for DA Germany DPCA Voting Representative!
