

For Voting Rep:

Being one of the older members of the current Executive Committee, of course I find the steady hand of people with experience very important, but I also think it is absolutely vital for our organization to continue encouraging new, talented leaders to participate and run for office. DA-Germany is blessed with an embarrassment of riches when it comes to competent, professional young women – and Courtney is one of those leaders.

I've seen first-hand how Courtney works. She and I planned and prepared the 2020 Global Presidential Primary Voting Center in Aachen together, and she is one of the five members of the CNEC (Chapters Nominations and Elections Committee) which has been running the elections of Germany's 14 chapters. She is professional, but also polite and patient. She deals with difficult people and questions like a pro – better than almost anyone I have ever seen. Diplomacy is second nature to her.

Courtney works hard to remain informed. If she doesn't know, she tells you. If she has a question, she asks. This honesty and persistence make her a good leader.

Courtney's hard work as Co-Chair of the Global Youth Caucus makes her a perfect representative from Germany to the global body. Her perspective will be good for the DPCA, and her hard work will make us proud. I'm supporting Courtney for DPCA Voting Representative because she is a friend, and because I trust her to represent Germany well. I hope you will too.
