

I enthusiastically support Powen Shiah's candidacy for DAG Treasurer. Powen possesses leadership and technical skills, and a clarity of vision that will be invaluable to the DA Germany Excom.

When I first met Powen I was struck by his depth of knowledge and understanding of the DA systems, as well as his persistent and innovative search to improve Nationbuilder usage. It wasn't until last year, when we both joined the AAPI Caucus formation team, that I was lucky enough to see Powen in action - and I gained a new appreciation of his skills. Powen managed the caucus formation – crossing all the 5's and dotting the I's, creating checklists, to do's, and assigning ownership with high degree of professionalism and calm. During this process I noticed Powen's ability to lead leaders, a subtle and unique talent that I have come to deeply appreciate. He always has a point of view that is well thought out and he makes any meeting both more interesting and more professional.

Powen's work as the IT Liaison for the Caucus has been meticulous, well thought out, and always reliable. His work takes the AAPI pages a step further, with new ideas and implementation, creating helpful details and visual touches that have inspired other caucuses. He is a great team player and never hesitates to step in to help out others when they are busy or unable to take care of a request.

Please join me in supporting Powen for DAG Treasurer.
