

I first got to know Antar while we were members of DA Münster-Osnabrück, before he moved to Leipzig in early 2019. When we decided to run a Leipzig GPP in 2020, Antar was the first person I called for support. He immediately expressed his commitment to the project and became a founding member of the Leipzig-Halle precinct. Throughout DA Saxony's growth, he has been more than reliable, attending every chapter meeting and in-person GOTV event. As acting and now elected Vice Chair, Antar has played an instrumental role in the development of our new chapter.

What makes Antar truly special is his gift for inspiring others. His passion, strength, and energy for advocating progressive issues is astounding. I often witness people's eyes light up when Antar begins to speak, as if they could suddenly see possibilities and realities they didn't perceive before. Antar holds steadfast to his beliefs but possesses a remarkable ability to build bridges among people with different viewpoints. He has a generous ear and brings a dynamic energy to any team, encouraging people to look at things in new ways while also remaining focused on the concrete goals at hand. His vision and ability to mobilize others will be vital in making DA more inclusive and accessible to Americans abroad.

It is my pleasure to endorse Antar as a DPCA Voting Representative in full confidence that he will represent our organization in the best possible light and bring fresh energy to the team.
