

It's not common for someone to endorse a candidate they're running "against", but Antar Keith is not your everyday candidate.

I first heard of Antar when he ran for a DNC seat during the Global Convention in May 2020 and thought, "Antar? Germany? Huh!?" Then I read his candidate statement and "met" him during an online "meet the candidate" session. After talking to him for just a couple of minutes, it was clear why he was taking that leap.

Antar is very impressive – articulate and professional, yet friendly and funny. Antar is a progressive, but he knows how to talk to people who aren't. He knows how to speak eloquently about the work we do, and the work we need to do, but he also knows how to do the hard work of party-building.

I heard from others about his work and activism in Münster, but as Chapter Development Coordinator, I saw for myself how hard he worked to help form our newest chapter in Saxony – building teams, planning events, registering and motivating voters.

DAG's chapters are a very important part of our identity, and they are the driving force behind our incredible growth over the past few years. I think Antar will do a great job representing our country committee, and his chapter, at the global level.

I'm voting for Antar (and myself) in the second round – and I hope you will too.
