

I first met Kaitlyn when she was part of our Münster/Osnabrück chapter. She was immediately eager to help our new chapter move forward any way she could. This translated into Kaitlyn taking over the management of our website and other social media outlets. Kaitlyn then left us for greener pastures, and within a short period of time in her new home managed to create a new, large DA presence, what quickly became the Saxony Chapter. For me, this illustrates her ability to be both a team player and leader, traits that clearly will help her be an effective communications coordinator for DA nationwide. This together with her professional experience make her the perfect candidate for this position.
