

During the past four years, I've had the pleasure of working very closely with Diego during his time as Chair and my time as Vice Chair in Berlin. We both began to be more active in Democrats Abroad around the same time and it has been great to see him grow as a leader and as a member of Democrats Abroad. Two years ago, Diego was elected to be a DPCA Voting Representative and he has taken this position very seriously. This included traveling to the Global Meeting in Washington, D.C. in 2019, where I saw him speak passionately about the direction he believed our organization should move towards. He also was a Bernie Sanders delegate in 2020 and despite the Democratic Party Convention being held online, he still worked hard to make sure to connect with other delegates and spread the word about Democrats Abroad. During his time as Chair in Berlin and as a delegate, Diego made sure to actively communicate about the work that was happening at a global level.

I believe that Diego has a strong knowledge of Democrats Abroad, as well as perspectives from a chapter, national, and global level. He will continue to represent DA Germany and its members while working towards a more inclusive, diverse, and progressive Democrats Abroad. Therefore, I support Diego's candidacy as a DPCA Voting Representative for Germany and hope that you will also join me in voting for him.
