Subject: We MUST act on climate change

Dear,

My name is \_\_\_\_\_ and I am a constituent from \_\_\_\_\_.

I am writing to urge you to prioritize climate change as it is one of the central political, philosophical and ethical issues of our time. It is imperative to act to avoid the current course of climate change.

I ask that you prioritize policy that allows the United States to lead the world in protecting the planet and conserving resources for future generations.

The impacts of climate change affect many aspects of our lives including the economy, health, energy, infrastructure, agriculture and more.

In [*include example from your district, ex: Suffolk County the recent algae blooms and its impact on local fishing practices*] is a prime example of how the current course of climate change is harming our district [*'s economy*] and why it needs to be prioritized

Please act in the best interest of your constituents and all Americans to support environmental policies. Our future as individuals, and a country depends on it.

Sincerely,

*NAME*
