

# PHELAN DANTE FITZPATRICK

## FOR NEW YORK CITY COUNCIL DISTRICT 3

As New Yorkers we are facing a number of complex challenges. Together, we are fighting for racial and economic justice, to contain the COVID-19 pandemic, to open our schools safely, to save our restaurants and bars, and to keep the cultural institutions we cherish and love alive and vibrant. We are fighting for our home—for the future of New York City.

My name is Phelan Dante Fitzpatrick, I am running to be the first Black New York City Council Representative for District 3. I am a father and the operator of several small businesses in our district. I know first-hand the economic uncertainty facing working people and the small business community in District 3.

Together community members, activists, and law enforcement must examine and discuss the idea of safety and what it means to be safe. We are safer when our children and their friends attend high-quality public schools, when we can afford our healthcare, and when we can find good jobs and affordable, secure housing in our communities. As the City Council Representative I will fight for the wellbeing of my neighbors, my constituents, and all New Yorkers.
