Heritage Action turns conservative ideas into reality on Capitol Hill. We do that by holding lawmakers accountable to their promises to advance the conservative principles of free enterprise, limited government, individual freedom, traditional American values, and a strong national defense. We work directly with federal lawmakers inside and outside of Washington—the only way to bring about the conservative policies that hold true to our Founding Fathers' ideals. Heritage Action exists to ensure that these ideals are not only maintained but flourish, both now and for future generations. Heritage Action's unique strategy combines inside-the-Beltway lobbying with outside-the-Beltway grassroots pressure. (from Heritage Action website)

The mission of "1776" is to " ... uphold our country's authentic founding virtues and values and challenge those who assert America is forever defined by its past failures, such as slavery. We seek to offer alternative perspectives that celebrate the progress America has made on delivering its promise of equality and opportunity and highlight the resilience of its people. Our focus is on solving problems. We do this in the spirit of 1776, the date of America's true founding with her Constitution and Bill of Rights which unites us as Americans. "This effort is contrary to the "1619 Project" of the New York Times which focuses on "reframing American history... to regard 1619 as our nation's birth year." 1619 is the year enslaved Africans first arrived in America.
