

## We need Senator Tillis in the Senate to maintain a majority to:

- Confirm more **conservative judges**
- protect the senate **filibuster** so that bipartisan support is needed to pass legislation.

Without it Dems could pass proposals that Cal Cunningham supports, like the Green New Deal, government run healthcare, defunding the police and the ability to sue law enforcement officers...

### Tillis' record

- voted to **repeal the Affordable Care Act**. He has introduced a bill to address pre-existing conditions.
- Followed North Carolina's support and voted for President Trump's declaration of a National emergency to pay for his **border wall**.
- Partnered with President Trump to pass **pro-growth** policies that have produced record low unemployment for women and minorities, rising wages for blue collar workers, and more take home pay for the average North Carolinian, like the 2017 Tax Cuts and Jobs Act. Cal Cunningham vows to repeal it. If Democrats gain control of the White House and Senate, they "will raise your taxes, they will regulate businesses out of business, they will turn a blind eye towards China's malign actions, and this country will be forever changed", says Tillis.
- Supported President Trump's **America-First trade policies** that have led to agreements that help North Carolina farmers and small business owners, like the bipartisan US Mexico Canada Agreement (USMCA). Cal Cunningham opposed those very trade policies and refused to back the USMCA.
- Worked with President Trump to **reform the VA**; provide better access to health care and job opportunities for Veterans; secure record pay increases for our service members; and obtain over \$2 billion for military installations in North Carolina. Cal Cunningham, on the other hand, criticized President Trump's decision as Commander in Chief to eliminate Qasem Soleimani, the Iranian terrorist who directed the injury and murder of hundreds of American civilians and servicemen and women.
- Introduced legislation that will help President Trump combat dangerous **sanctuary cities** that are putting North Carolinians at risk. Cal Cunningham wants to "enable" sanctuary policies.
- Encouraged Congress to let the people of North Carolina decide President Trump's fate at the ballot box in 2020. Cal Cunningham followed the lead of the radical liberals in Washington, calling for the President's impeachment even prior to the release of the transcript of the Zelensky call and ultimately said that he would have voted to remove the President from office with no proof to support the charges that were made. We are supposed to be a country of laws. Support a Senator, Senator Tillis, who understands this.

- Firmly **denounced socialist proposals** like Medicare for All and the Green New Deal. Cal Cunningham supports the Green New Deal and Medicare for all. He also touted the "merits" of communist and Marxist ideology as UNC-Chapel Hill student body president in the 1990s.
- Supports the **free market system** that has made this country great. Call Cunningham is for raising taxes and drastically expanding government control over the lives of North Carolinians. "While liberal Democrats want to cripple our economic recovery with higher taxes and more government control, Senator Tillis is focused on pro-jobs policies that put North Carolinians back to work and empower them to prosper." says the Senator's campaign manager.

### **Tillis' plans**

He is **tough on China** to get jobs and supply chains back to the US. He backs his talk up with a bill that he is sponsoring (SB3827) to source pharmaceuticals in America.

**When it comes time to vote, Senator Tillis has been with President Trump to approve judges and policies that support the agenda to "Make America Great Again" now it is our turn to support Senator Tillis by re-electing him. Vote for Tillis.**
