

Sample Audit Request Call Script

Below is a sample call script developed by the NC COMMS work group of @NCFirstAudit on Telegram. Please use this as a guide to call your State Legislators and request a full forensic audit. Thank you!

Sample Call:

Good morning / afternoon.

I'm calling to leave a message for Representative _ / Senator _.

I'd like to ask him / her to begin the process of getting a *full forensic audit* of the 2020 election in North Carolina.

Article 1, Section 4, Clause 1 of the US Constitution gives our state legislature the ability to conduct an audit without a legislative bill.

This has been done in Arizona, and Senator Wendy Rogers (of AZ) is willing to help our state legislature learn how to begin the process and conduct a full forensic audit.

The latest Rasmussen polls from June, July, and August show that the American people have no confidence in our election system and support audits.

I'm asking Representative _ / Senator_ to stand up for the people of our state and do the right thing to begin a full forensic audit.

Thank you.
