

MACKAY OPINION SURVEY

Around 250 people were surveyed in the streets of Mackay to determine what they think about the Adani projects

We asked people what they would say to their parliamentarians if they had a chance. Here is a random selection of responses.

- Please protect our land, water and air for our children to have a healthy future. No new coal mines!
- 100% Australian workers
- Be fairer on farmers for water allocation
- It's not needed. Don't allow this to happen!!!
- Stop thinking coal is the answer to energy and jobs. there is a better way. Open your mind.
- Put necessary legislation in to make it fair
- Reject bribery and corruption - represent the people who elected you.
- Be sensible and listen to the people. 10,000 new jobs does not justify destroying the planet.
- Stop selling our country short
- Just say no!
- Be fair. Can't charge farmers and gives it to the mines.
