

Greetings, my name is Jan Stewart Cromartie. I'm from Lumberton N.C. I grew up one mile from the family farm I-95 South. I have a wonderful and exceptional mother and equally exceptional sisters and brothers. My brother is educated internationally, nationally, and statewide. I worked during the summer during my teenage years on the family farm. I witnessed and was exposed to the sweat, blood, and tears they put in this farm. I also served in the United States Navy. I was able to learn how to appreciate the many bodies of waters, land, and soil because of my travels internationally.

My platform as Durham County Soil and Water Conservation District Supervisor. I'm going to initially focus on our soil and water as it relates to drinking water, streams, rivers, lakes, and other bodies of water. I want to focus on our soil and water for our agriculture.

The Staff of Durham County have been funded with various grants and other recent grants because of the devastation of COVID-19. We have the Community Conservation Assistant Grant, Agriculture Cost Share, and Agriculture Economic Grant. Also, there are federal grants allocated to Agriculture and farmers in the amount of 33 Billion Dollars and 873 million dollars from section 32 funding.

My Vision

The Covid-19 pandemic has altered some of my vision for Durham County. I feel that I can help curb some of the effects of the Covid-19, by installing an innovative infrastructure system to aid the solution. I also would implement volunteer compliance training classes for all Durham County citizens. I will propose as Durham County supervisor, an implementation of a comprehensive and strategic training program for all urban and rural areas, especially within our Durham County school system, parks and many of the commercial sectors that we have in existence. Finally, we must focus heavily on the areas of our county that are high demand. I am not a fan of being selective.

My Statement

My Fitness Statement for Durham County Soil & Water District Supervisor. I am fully fit mentally, emotionally, and physically to implement and evaluate any tasks rendered one by the soil and water staff and all Durham County Citizens and our surrounding communities. I will attempt to do that in an efficient and professional manner.
