Next March, Los Angeles will be making a number of improvements to our voting system that makes it straightforward and more convenient to vote. You will be able to vote at any one of many new polling centers across the County, including some of your traditional polling places.

The changes will also allow you to vote on any day during an 11-day window. We are excited about making voting more accessible, and we want you and your neighbors to understand and take advantage of this new flexibility.

Please join the LA County Registrar-Recorder/County Clerk and the office of Supervisor Sheila Kuehl for a voter education workshop to discuss these changes. This is a great opportunity to learn more about the Vote Center Placement Project and to be sure that you know your options come Election Day.
