

## The Department of Public Health is Recruiting

### Focus Group Participants!

The Los Angeles County Department of Public Health is conducting an assessment of the potential health impacts of the Build Better LA Initiative, an affordable housing and economic development policy that would affect future housing development in the City of Los Angeles.

As part of this assessment, we are conducting focus groups—in English and Spanish—with residents from a variety of Los Angeles neighborhoods. Specifically, we are looking for people who are regular users of public transportation and who meet certain household income eligibility requirements.

Participants will be asked questions about their current housing and public transportation experiences and how various aspects of the Build Better LA Initiative might affect their housing and transportation.

## ¡El Departamento de Salud Pública está Buscando a Participantes para Entrevistas en Grupo!

El Departamento de Salud Pública del Condado de Los Ángeles está haciendo un estudio sobre el impacto que podría tener la iniciativa Build Better LA en la salud de residentes de Los Ángeles. Build Better LA es una iniciativa que podría afectar el futuro desarrollo de alojamiento asequible en Los Ángeles.

Como parte de este estudio, estamos haciendo entrevistas en grupo, en inglés y español, con residentes de varios vecindarios de Los Ángeles. Específicamente, estamos buscando gente que use transporte público regularmente y que tenga ganancias de hogar que les haga elegibles para el estudio.

Se les preguntará a los participantes sobre sus experiencias con el alojamiento y el transporte y cómo varios aspectos de la iniciativa podrían afectar su alojamiento y transporte.
