

Your Mission: To understand the threat, and demand a complete independent Congressional investigation of the Democrat IT scandal.

(OSINT)-Open Sourced Intelligence Briefing

A. **DEMOCRAT PARTY IT BREACH** - Compromised Congress. We need to ensure Congress is working for the American citizen. This IT scandal gave access to foreign interests on the House Intelligence Committee, Armed Services Committee, and Homeland Security Committee.

B. **WHY THE COVER UP IS CONCERNING** - It used to be that America's press and Congress were anxious to get to the truth. Today, it seems like they are just trying to look the other way. Watergate was not as much about the crime as it was the cover up. This IT scandal includes a major national security risk and at a minimum a waste of your tax dollars. **YOUR CONGRESS HAS BEEN COMPROMISED.**

C. **THE HOUSE INSPECTOR GENERAL (IG) HAS DOCUMENTED SERIOUS DEMOCRAT IT SECURITY ISSUES.** The IG uncovered financial theft. Worse, access to sensitive information on committees or personal information could be used to blackmail or coerce. Regardless of your party, you should not want your elected representative to be compromised in this way.

D. **PAKISTANI INTELLIGENCE - ISI CONNECTION?** - There are indications that the ISI could have been running the ring, or at least benefiting. This creates a National Security threat of the highest magnitude. U.S. servers were being accessed from Pakistan even after Awan Brothers were no longer on the Democrat IT staff.

There are people that would love to compromise your elected representatives. They want representatives that will no longer work for you, but instead foreign interests, special interests, or lobby groups.

Why you should care? - A compromised Congress threatens your liberty and livelihood. They have a big say in your future.

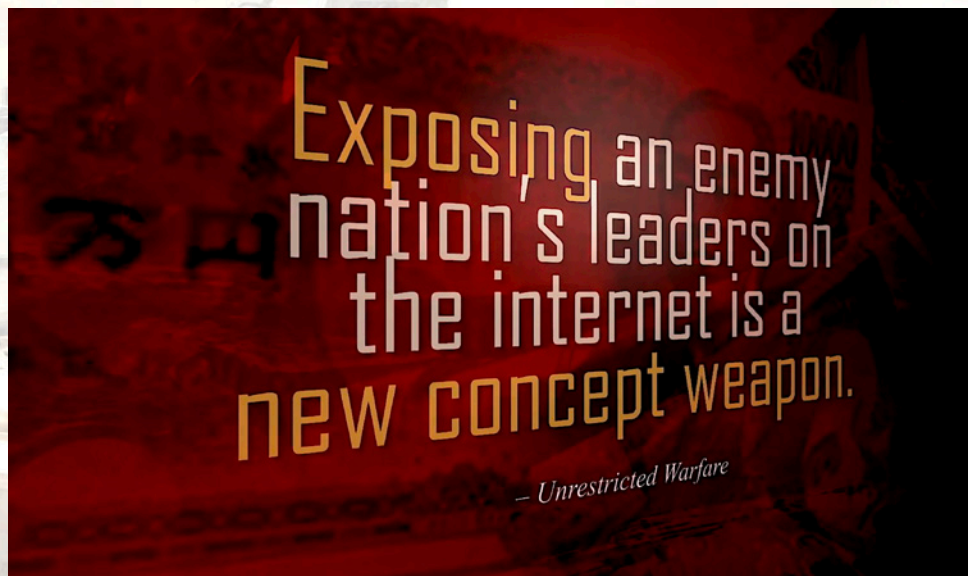

CONGRESS INFLUENCES:

- How much money you make, and what you get to keep
- Government spending and the future debt they put on your children
- Your medical care and how it is regulated
- Who gets patents and grants
- Highway and border wall construction
- Federal spending
- National security

What else this means to America? This could be the most extraordinary National Security scandal of our lifetime, and some Washington leaders are hoping this story goes away.

Cyber Hygiene Updates: Is your data safe?

- **Warning: Did you know hackers could access your computer through your Wi-Fi printer?**
(we will explore this more in a future episode)
- **Do you bank electronically? If so, make sure you keep paper records also**
- **Do you use public Wi-Fi? If so, you are vulnerable**

Look for EWR's upcoming cyber segments. We have one of the nation's pre-eminent good-guy hackers explaining how you are at risk, and what you can do about it.

What we see as a **MARKETPLACE**
our enemies view as a **BATTLESPACE™**

We need to get as much attention on this issue as possible. A compromised Congress puts all of us at risk.

Economic Patriot Action Plan:

1. **ASK your Congressional representative** about what they are doing to protect our nation. Have they vetted their IT team?
Your banker would end up in jail if he failed to secure your information. We should expect nothing less from our elected officials.
2. **Go to the Economic War Room Facebook watch page ([click here](#))** and share our mini segment on this breaking story.
3. **Ask your elected representative initiate an investigation** of the Democrat IT scandal. Keep sharing this story and this segment.
4. For more background information on the Democrat IT scandal: [Pre Order, on Amazon, Luke Rosiak's book, Obstruction of Justice, How the Deep State Risked National Security to Protect the Democrats](#). Release date: January 29, 2019.
5. **Secure your personal data**, and beware of your personal cyber security.
6. **Care and Share!** Better educate America on the threats ahead. Learn. Recruit more patriots to the **Economic War Room**.

SHAREABLE FACT: Democrats hired the Awan security team that included relatives that worked McDonalds, CIA Used Cars, all earning 6-figure incomes. When they were banned from Congress, they kept a backdoor email address (123@mail.house.gov) that gave them full access to Congressional servers. (Are you feeling secure yet??)
