

**Background Briefing:** Abraham Lincoln once said, "The philosophy of the classroom today will be the philosophy of government tomorrow." Dr. Everett Piper, retired Oklahoma Wesleyan University President joins the Economic War Room for a briefing on how our Universities have lost their mind. Liberal used to stand for liberty and freedom. Today free speech is considered fascism. We stopped teaching things that makes sense.

"The problem is this, our campuses have lost their minds! The bastion of free speech has become a bulwark of ideological fascism...and that is we have a real problem and it starts on our campuses."

-Dr. Everett Piper

**Your Mission: To understand truth and the importance of a real education in our institutions.**

**Dr. Piper explains that we must think twice before sending our student to an institution that prides itself on tearing the values out of our kid's heart, mind, and soul.**

Ep. 2.63 (OSINT) Open Sourced Intelligence Briefing with highlights. This includes quotes and summaries of conversations in the *Economic War Room with Kevin Freeman* and Dr. Everett Piper. Dr. Piper recently retired as President of Oklahoma Wesleyan University. He is a *Washington Times* contributor and author of the bestselling book, *Not a Day Care*.

**It used to be about truth and morality:**

"Every Ivy League institution, with the exception of one, was founded on explicit Judeo-Christian tenants. The goal was to produce an educated and free person. Go across the country and look at the mission statements that still remain, at least on paper. For example, Northwestern University, in the Chicago area, has a passage from the Bible (Philippians) in their mission and on their school's seal. Now, they probably don't know what it means, but it's still there. 'Whatever is true, whatever is nobel.' We likewise go out to the West Coast and the University of California system cop talks about Fiat Lux.

What does that mean? 'Let there be light.' Where does that come from? The Bible. So, the American Academy is an institution, an ivory tower that is built upon the foundation of a biblical world view."

**1. What a liberal education really means (and used to stand for) at America's Universities.**

- » It was not about the progressive movement of our day, but because of liberty and freedom.

- » It used to be an institution built upon the idea that we should teach people how to be free. We should teach people how to be a free nation, a free culture, a free country, a free church, a free individual, a free man and a free woman.
- » It was an education in liberty, and they understood that you could not have that without the words of Jesus, which were emblazoned across many library headings and headers. The Context of freedom is simply this:

**"You shall know the truth and the truth shall set you free."**

**"The university system, the higher education system in general, was teaching this truth. And it led to the greatest sense of prosperity in the history of mankind. So, we saw all the way up through the into the twenty 20th century, we saw education, leading moral people and economic prosperity and growth." -Kevin Freeman**

- » In the past 50-75 years, those same IVY leagues schools have walked away from that truth.
- » Harvard actually held Christian principles well into the 20th century, but not today.
- » And at the same time, we've seen our nation devolve morally also.

**So, which is the chicken? Which is the egg? Is the culture devolving because the education system or the education system because of the culture?**

"That's an interesting question. Let's quote Abraham Lincoln. What is taught today in the classroom will be practiced in government tomorrow. Well, let's quote Hitler. Let me control the textbooks and I will control the state." -Dr. Piper

**2. Ideas have consequences - The power of the podium and what is being taught.**

- » It is clear that leaders that are good and even leaders that are evil recognized the power of the podium, the power of what's being taught in the classroom, in the schools.

**Reflections of the Richard Weaver following the Holocaust after WW-II, in his book, *Ideas Have Consequences*.**

Paraphrased he was saying:

We should have seen it coming. We bore the consequences of lousy education, lousy ideas that we had been imbibing as a people for generations. So, we got what we should have received.

**Look at what it taught it the schools and that is the future.**

- » What is taught today in the classroom will be practiced tomorrow in our courtrooms, in our culture, in our boardrooms and even in our living rooms, because ideas always have consequences. They never lie fallow. They always bear fruit.

**"I'm paraphrasing this. This is not a direct quote, but I'm very close. Hitler also said you disagree with what I'm doing with our culture and our country. It doesn't matter because I have your kids there in my schools." -Dr. Piper**

Thomas Sowell said, "Ours may become the first generation destroyed not by the power of our enemies, but by the ignorance of our teachers and the dangerous nonsense they are teaching our children. In an age of artificial intelligence, we've created artificial stupidity."

**Piper's Solutions- What we should take very seriously in our culture today:**

- » Stop consuming the ideas that have led us to the precipice of socialism.
- » You're not going to have sense if you don't teach sense.
- » The reason we have a culture of nonsense is that we've stopped teaching the things in our schools that make sense.
- » And those things that make sense are natural law, self-evident truths that have been endowed to us by our creator.
- » If we deny truth, how can we ever be competitive with China or other nations?

### **3. Students are being taught to be victims today, not to excel.**

"We're taking the best and the brightest and we're tough. We got to dumb you down. We can't let you excel. We can't let you succeed. We've got to bring you bring you down, because that might hurt somebody else's feelings."

-Dr. Piper

- » This nation, with 4% of the world's population, produces about one quarter of the world's economic goods and services. If that's not exceptional, I don't know what is exceptional.
- » But it's not going to last. The Chinese are ready to prey on America because they see the failure of our system, and they see the direction that we're going.
- » If we can't encourage students to get honors classes and high grades and learn and achieve, we lose being exceptional. If we stop doing that, foreign competitors are going to eat our lunch.

### **4. Why Opinions do not matter.**

"The objective, the goal of the University of the College of Education in general, should be to help us understand those things that are true." -Dr. Piper

PAGE 5

**At Graduation Ceremonies Piper would often share the following:**

"I'm not going to give you a degree in opinions today. I'm not going to slap you on the back when you come across the stage to get your diploma and say 'Congratulations, you majored in opinions.' That's absurd. You don't go to college or university to get an opinion. You go, I hope, to learn something. To learn something about what's right and just and real and true.

And if anybody listening says, 'well, I'm not sure, I agree.' That's just his opinion on education.

Let me ask two simple questions.

- » Are you an engineer and are you designing airplanes? Because if you are and you do design them on the basis of your opinion, please tell me which plane it is that you designed. It's not going to fly.
- » Now, if you're a nurse and you're going to give me medication on the basis of an opinion rather than facts or science, please stay away from me. You're a very dangerous person because opinions always lead to brokenness and bondage.

It's only truth that sets us free. And the objective, the goal of the University, or of Education in general, should be to help us understand those things that are true."

**Harvard started with Truth. Yes, truth. Veritas. Here's the problem, though. It has devolved.**

---

**5. The Philosophy of Many Colleges Today and Safe Spaces.**

These nonsense colleges, all they do is they come out and point out the flaw in what you're doing. They never deal with themselves. They always make their point. "You shouldn't do this. And you should lose your ability to speak. You should lose your ability to earn money, because I disagree with you."

**They are teaching victimization more so than virtue.**

- » Students have been taught to believe that they are victims. And they've been taught to tell other people that they're victims.
- » Their entire world view is focused on "It's YOUR fault." There's no personal responsibility or personal culpability.
- » There's no concept of an idea like pulling yourself up by your own bootstraps so that you succeed. And in fact, that very phrase is perceived as white privilege and oppression.

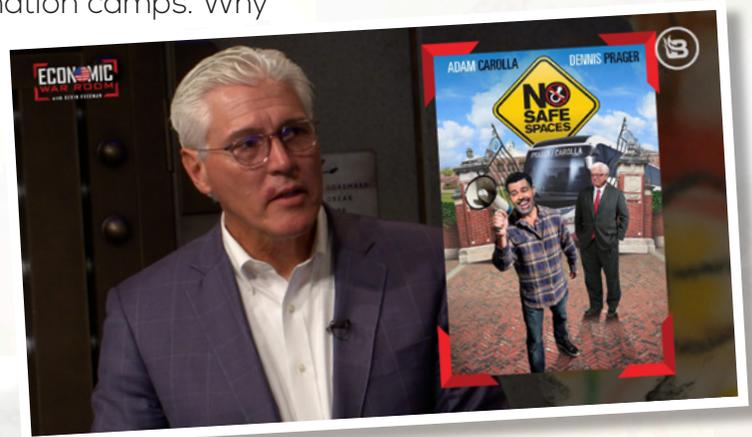

**“Therefore, they are vengeful and full of vice.’ If you teach victimization, rather than virtue, there will be a predictable outcome. And it will also always be vengeance and violent because it’s your fault. It’s your fault, therefore the only solution is to stop you and crush you.” –Dr. Piper**

- » The snowflake rebellion, trigger warnings, micro-aggressions, all call for “safe” education rather than good education.
- » And there is a difference, a huge difference between safe education and good education. Safe education is bad because it refuses to seek truth in case it might damage feelings. Good education is what education traditionally was supposed to be.

**“If you don’t have your understanding challenged, you never learn anything. If you just go with what you think and what you believe and have to protect that, you’ll never grow, you’ll never learn, you’ll never have anything of value.” –Kevin Freeman**

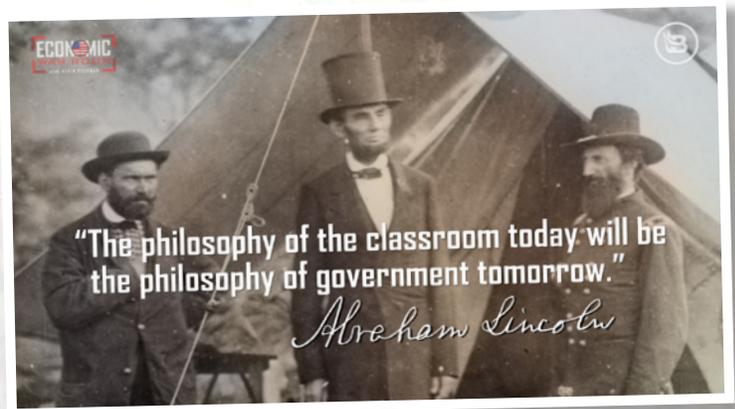

**Stop paying for an education in bad ideas and opinions:**

"There's no question that there is a solution here. And that's to stop paying for this. Stop voting for school bonds and stop paying the tuition to send your kids off to these snowflake indoctrination camps. Why would you want to spend 18 years of your life training up your child in the way he should go and then ship him off to an institution. In the first 18 minutes, as you're driving away, that school is taking pride in tearing your values out of that kid's heart, mind and soul. And if people think I'm exaggerating, I'm not. This is my industry. I spent my entire career in the ivory tower. I know from whence I speak. There is pride in tearing down the very values that launched true education. The values of a Judeo-Christian ethic, belief in an objective truth, a self-evident truth that we are endowed by a creator God and not just blessed by government. This is the foundation of a free people, and we're not going to be free individually, religiously, or financially if we tear down that foundation." -Dr. Piper

**Why you should care?**

- » **Ideas have consequences** - There are a lot of stupid ideas that are factually proven not to work. But they are approved for today's politically correct schools.
- » **The truth matters.**
- » **Our Universities are being taken over by dangerous opinions.**
- » **Victimization causes people to be angry and vengeful.** Is that the society you want?

In the Economic War Room, we encourage Americans to be the “small ships that make the difference.” You cannot rely on the government or the president to solve your problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty.

### Action Steps:

**Share this battle plan with your friends your US representatives. Without free speech, or with new proposed limited free speech America is in trouble.**

- 1. Look for Dr. Piper’s new book, *Adulting*, coming soon.** It will address 12 principles for how to deal with an immature culture. How to deal with trigger warnings, solutions to the snowflake ideology, and solutions to the ideological fascism that is prevailing on campuses today.
- 2. Stop supporting schools that want to tear your values out of your kids....**look for schools that align with your values from elementary all the way to the university level.
- 3. Send our battle plans to friends and help them understand what is really at risk! Look at the data and footnotes.**
- 4. Look for Dennis Prager’s new film “No Safe Spaces” highlighting the problems on campuses today.**
- 5. Dr. Piper recently wrote an article for the *Washington Times*.** It is a reminder to everyone that Jesus promised us that the gates of hell will not, cannot, will not prevail against his Church. The Church has established orphanages. The Church has established education. The Church has marched for freedom. The Church has been at the forefront of civil rights and human dignity and human identity. The Church will not be defeated. It doesn’t matter what we stand against today or tomorrow. **We need to have confidence in the promise of Christ. His Church will prevail.**
- 6. Weaponize your money.** One of the largest investments you will make is in the form of education. Make sure your money is not going to teach nonsense. Invest in education that teaches truth and not opinions.
