Preserving the Ideals of the American Experience and Christian Values

A Washington DC summit on the China threat, and the formation of the National Security Investment Consultant Institute (NSIC) Institute at Liberty University.

Liberty University continues to build on its heritage of reinforcing the American experience and Christian values. This week's briefing includes a general overview on many of the threats you have been briefed on in previous Economic Battle Plans.™ More importantly, it covers why Liberty University identified the need to educate America on the China threat, and the importance of Liberty, Security, and Values that will be addressed within the NSIC.

Liberty University is our NSIC advisor program partner. We wanted to invite the leadership from the school to share more about what they are doing to protect liberty and ‘Create Champions.’ Our Republic is at risk and it is critical America’s younger generation is given the truth and understands the greatness of America.

Your Mission: To pass the freedoms on that we enjoy to the next generation and consider how you can begin to align your money with your values.

“Kevin, you’ve been doing this for 30 years. Thanks for leading the way. I’m following your lead with Economic War Room and weaponizing our money and we’re excited to launch the National Security Investment Consultant Institute (NSIC) at Liberty University.” –Dave Brat
Ep. 3-113 (OSINT) Open Sourced Intelligence Briefing. This includes conversations in the Economic War Room with Kevin Freeman, Dave Brat, and Ryan Helfenbein. Dr. David Brat is a former Congressman and Dean of Liberty University’s Business School. Ryan Helfenbein, is Vice President of Communications and Public Engagement at Liberty University and Executive Director of the Falkirk Center for Faith & Liberty. They share the history of the school and the future ahead.

1. Our country was built on 3 pillars and China is zero for three on all of the key principles that make up America. Those include:

   - The Judeo-Christian tradition,
   - The rule of law,
   - Free markets and business.

Today, China is destroying these pillars in their country and everywhere they can.

   - Freedom of religion – They repressive of religion and freedom of thought.
   - Rule of law – there is none and they’re spying on all their people and giving them social credit scores.
   - Business and Free Markets – The CCP is controlling all the business in their country and using their infiltration in the US to steal our intellectual property.

“We’ll see what comes of that. I think China has got a crackup coming. If you violate all three of those principles you are headed for trouble. It is these three things that helped make America great.”

My life was a synthesis between faith and economics and that naturally lead into politics. But our country, was built on three great pillars, the Judeo-Christian tradition and the rule of law, and free markets/business. I worked at the World Bank 30 years ago. China, then the average income per capita was about a thousand dollars a year per person in China. So not a threat back then, right? Not an issue.

Now they are a number one strategic threat and also economically. They’ve declared an information war against us back in 1999. And the famous document that folks should look up is ‘Unrestricted Warfare.’” –Dave Brat
2. Liberty University Leads a DC Summit to Expose the Truth and Address Key China Issues.

“We wanted to pull together a China summit to expose this and to get at the issue of what China is really doing.” –Dave Brat

The Chinese Coronavirus:

“The biggest issue of our day is this Coronavirus coming over here. Where was it made? How was it made? The evidence? Great leaders spoke at our China summit, including Senator Cotton and Marsha Blackburn and 20 congressmen. And they all pretty much said the same thing. There was an active intent on the part of China at a minimum, in terms of releasing airplanes and flying people here when they shut down their own economy. There’s an intent there and that’s cost us over 200,000 lives and shut down the economy for the first time in our history. It’s never happened just by fiat. Government shutdown, the first weapon of that kind in the history of mankind.”

“Now there are some estimates, you talk to the World Bank and others, and I think a lot of these estimates are phony, but some estimates that China’s economy is now larger than ours. So in 20 years, how did they build it? Literally from stealing from us.” –Kevin Freeman

Read the book Unrestricted Warfare and it is clear there are no rules of civility. You are fighting with someone who is on the verge of evil. THE CCP HAS MADE THEIR INTENTION VERY CLEAR AND WE ARE AT WAR.
It is in the book; China outlines the 17 ways to take down a Superpower and they are implementing these against America. See Economic Battle Plan™ 105 and the 17 steps they are using. CLICK HERE TO DOWNLOAD.

“China declared their intent way back when, and we’re seeing it unleashed on the world right now. They’re going through Africa. They’re doing the Belt and Road initiatives. They’re buying United Nations votes. And they’re getting bigger and bigger and bigger. And it’s the asymmetric warfare. We’re not fighting Buddhists. We’re not fighting folks who follow the Confucian ethic which have civility built into them, respect for law, respect for parents, respect for leadership. When I say we are fighting China, I am talking about the CCP not the Chinese people.” –Dave Brat

WARNING: The Facts are Finally Getting Out and America is waking up to China’s real strategy. UNFORTUNATELY, WE HAVE MANY PROGRESSIVES AND GLOBALISTS WILLING TO PUT THEIR PROFITS OVER AMERICA AND THEY ARE PUSHING AN ANTI-AMERICAN AGENDA.

OVER Two Million people learned the truth about China from the Liberty Summit on China! The Falkirk DC summit was on America’s Voice Network, Sinclair Broadcasting, Economic War Room and BlazeTV.
3. A look at Liberty University - its impact and role on American Culture.

“When you think about big cultural icons and you think about great spiritual leaders in the 20th century, probably the first that comes to mind for evangelicals is Billy Graham. I would say among the top three would be Billy Graham, Dr. Jerry Falwell, Sr. And you might even say somebody like a Chuck Colson or Francis Schaeffer.” –Ryan Helfenbein

Dr. Jerry Falwell, Thomas Road Baptist Church, Liberty University, and The Moral Majority Timeline

⇒ 1950’s, he founded Thomas Road Baptist Church. It started in a little bottling plant for orange soda pop. He started that missionary there in Lynchburg, Virginia, grew that church.

⇒ Late 1960’s, he felt the call of God to start a Baptist Bible college and he started Lynchburg Baptist College.

⇒ In 1971, Lynchburg Baptist college became Liberty University.

⇒ In 1979, he founded the Moral Majority.

“I don’t think Ronald Reagan could have been elected without Dr. Jerry Falwell, Sr.” –Kevin Freeman

The 1980 Presidential Race. Carter vs Reagan

“If you think about that particular pivotal election in 1980. You had a Southern Baptist Sunday school teacher who was on the ballot and he was running against a divorced, twice-married Hollywood actor who
was a pro-choice governor of California. Think about what that meant. But Falwell’s backing of then candidate Reagan signaled a seismic shift and he was correct. And largely evangelicals followed suit, recognizing what was best at the time for the nation.” –Ryan Helfenbein

CHRISTIANS NEED TO HAVE AN ACTIVE VOICE IN POLITICS!

The Moral Majority made a huge impact.

• One of the marks is recognizing that Christians in politics isn’t a new thing.
• If you go back further in history, there were many other civic religious leaders who recognized that Christians need to have an active voice in the public sphere.
• It is important to understand, we don’t need to abdicate our calling as Christians to go out publicly to state our faith and declare public morals.
• The younger generation needs to be reminded of these principles. What you’re seeing right now, even in this current election, is that there’s a battle for the younger evangelicals to understand what true ethics are and actively voting.

4. Liberty University Business School – Creating Champions

Unlike many other schools, Liberty offers a business and economics program that does not teach socialism and cultural Marxism.

Dave Brat Shares:

We integrate the gospel into class every day. We train champions for Christ. Unlike the socialist doctrine, it’s fairly simple. You can share within the church and do as you want with your brothers and sisters that way, voluntarily. But there’s certainly no command that we get to command Rome or the federal government today. Lately we’re trying to teach the young folks about the sovereignty.

Romans chapter 13, basically says submit to the rulers. They’ve been ordained by God to maintain peace, et cetera. But now, in 1776, we became the sovereign and the people are the new ultimate ruler.
THAT PUTS A SPECIAL ONUS ON US TO PLAY A PART IN THIS PUBLIC SQUARE. IT’S NOT OPTIONAL. YOU DON’T SUBMIT. IT’S NOT TO TRUMP OR BIDEN. IT’S TO THE LAW WHERE PEOPLE ARE UNDER THE LAW. OUR NATION UNDER LAWS. NOT UNDER MEN, AND WE HAVEN’T DONE A GOOD JOB OF EDUCATING THE FOLKS, AND WE HAVE PLANS AHEAD THAT ARE EXCITING.

A friend told me the other day, "You guys are like the Model T just getting started in year one. You have no idea the global platform and reach you will have on behalf of Christ in China. For example, the estimates are they’ll have about 300 million Christians in China in 30 years. So the world is just cracked wide open and when that happens…"

There is Good News! There’s great hope out there right now. Everyone’s pretty depressed with COVID in the business. You know, it’s tough times. Anxiety is through the roof, but there’s always hope out there. God’s work in the world, even though we don’t see it clearly. But it’s coming.

There are three key Centers of Liberty’s Business School:

1. The CENTER FOR FINANCE - LITERACY/ TRADING
2. THE CYBER CENTER - INFORMATION/ IT
3. Going forward, everything’s going to be the world of information. It’s the new platform. All the kids are into this stuff, including graphic design and web design and getting out there on all their social platforms.

It used to be that accounting or economics was the main platform for business. Now it’s information. Right, like we’re talking about with China. Right now China has a good economy. Right, like we’re talking about with China. Right, like we’re talking about with China. Right, like we’re talking about with China. Right, like we’re talking about with China. Right, like we’re talking about with China.

Estimate: They will have 300 million Christians in China in 30 years.

You guys are like the Model T just getting started in year one. You have no idea the global platform and reach you will have on behalf of Christ in China. For example, the estimates are they’ll have about 300 million Christians in China in 30 years. So the world is just cracked wide open and when that happens…"
• **THE CENTER FOR ENTREPRENEURSHIP**

The Entrepreneurship Center spreads beyond business.

- We are equipping business leaders to make a difference.
- We are training pastors who are going to run a business and we need to equip them to do that.
- The doctors and nurses in the schools are going to run businesses.
- The music people are going to run businesses.

We have to bring Christian principles to bear in all that we do. And of course, a lot of that happens just by building up the character of a Christian through life, even at a young age.

“This is what it means to be a champion for Christ. It’s in every sphere of influence. So what he’s talked about is the competitive nature of Liberty University and how seriously academics are taken to prepare and equip them to be leaders.” –Ryan Helfenbein

5. **The NSIC Institute at Liberty University** - A practical way for people to express their faith through their investments, giving, and spending.

Luke 16:11 says that if you can’t be faithful with unrighteous mammon, who’s going to trust you with true riches?

Usually preachers will take that and say, oh, you’ve got to give money to the church. But there’s so much more to money than just the giving. Giving is important. It is important to understand you can give your money, you can spend your money and you can invest your money in ways that align with your values.
CASE STUDY - BIBLICAL ECONOMICS

“So one of my favorite economic passages, by the way, there’s tons of them, Matthew, Mark, Luke and John, where Jesus uses these parables to instill a teaching. And in Luke Chapter 16, and by the way, later you have the prodigal son in the same chapter, but he talks about the dishonest manager and Jesus actually praises him in his shrewdness and how he handles worldly wealth. He’s actually commended for his ability to scheme, which is very interesting.

I think a lot of times what is missed on Christians is this, we have a sacred versus secular dichotomy where the only function of income or a job, is utilitarian. It’s just I’m going to earn money and then I convert that money into a gift, that is a tithe, and then God can use it. That’s not the case! God can use all of your money even as it’s used in business and in economics in order to build his kingdom on earth.

I was just talking with Jason and David Benham, about entrepreneurship. The same way the Christian vision is shaped largely by the Bible more specifically than a Judeo-Christian worldview. It’s a biblical worldview in which we take these principles and we think, ‘then how do we do business? How do we do economics? How do we do invest, trade and all of those things in order to build God’s kingdom on this earth?’” –Ryan Helfenbein

6. A worldview is important as we consider how we invest and spend our money. That means understanding investment opportunities, geo-political threats, and ideology.

- The China Summit Liberty hosted helped provide a worldview about our money and the values that are being pushed in that society.
- People tend to think, I’m going to give properly and I’m not going to spend money on things that are bad.
- Unfortunately, their investments might be going to fund communist China, repressing the Uyghur population, supporting organ harvesting, or forced abortion. All of this is happening because they’ve invested in a company that just gets stuffed in their portfolio by Wall Street.
A Look at The Importance of Free Markets in Society

“Adam Smith comes along, sets up free markets, and that’s the work of God. There’s not enough attention paid to that providential hand of God that’s prepared us to live. In this very sophisticated system that we’ve built up, it is now under attack.

I think that’s what the Economic War Room does. It’s saying, ‘hey, we are under attack now.’ All the foundational pieces that were laid from the church fathers in the creeds all the way through sophisticated money, modern university systems are under attack.” –Dave Brat

Wow!

All of this makes you want to get back to the Judeo-Christian tradition, because without it, we’re dead. But as Christians we have been naive, especially naive when it comes to evil in our face.

- Look at BlackRock. Larry Fink is focused on ESG, the environmental, social, justice, social governance priorities.

  “One of our friends says to him in a public board meeting, ‘hey, you’re doing all this stuff. But why is half your money going to China?’ They’re not particularly known for their clean skies and liberal governance and taking care of the people and human rights. The corporate response was crickets. And so, then we say conservatives say in our naiveté, they’ve contradicted themselves. We got them, ‘whoop de do.’ They’re taking real estate. They’re going around the world getting nation states on the UN votes. And we’re like we’re writing white papers that think tanks saying, ‘you’ve contradicted yourself.’ Are you kidding me?”

- George Soros is another wealthy guy and he’s had an unbelievable negative impact on our nation.

A look at why the NSIC can make an impact and is needed now! It is time to Weaponize Your Money to be aligned with your values.

- What would a trillion dollars, if it was weaponized for Judeo-Christian values, do? That’s four hundred times the wealth of George Soros. And that’s what we’re talking about at the NSIC Institute.

- Our goal is to get $1 trillion dollars of American patriotic citizens capital awakened to protect, preserve, and defend the Constitution.

- As Americans, we want to leave a legacy of freedom and Judeo-Christian values for future generations.

- We’re going to be equipping investment advisors in new ways. The average person says, “I don’t know what to do with weaponizing my money?” they need help. The Bible talks about “with many counselors, plans succeed.” So we’re going to help people get some counselors through the NSIC and our training program at Liberty University.

- With Liberty University’s large online education program, we will be using new technologies to scale and allow business professionals and investors to develop new skill sets as it relates to Liberty, Security, and Values (LSV) investing.
WHY YOU SHOULD CARE:

- History, free markets, and our constitution are no longer taught in schools anymore, it is up to us to influence these institutions with the truth.
- There are Geopolitical Threats and potential values conflicts across the globe that are important to understand when investing.
- Money has been weaponized on the left for progressive globalist agendas, while free market constitutionalists let it happen with their money and investments.
- Washington cares about votes and money, the NSIC advisors can help give Main Street America its voice in regard to Liberty, Security, and Values.
- China has a specific plan to pre-empt America using your money and investments against you.
- Many of America’s younger generations have no perspective of the Cold War mentality verses the true blessings of liberty that they have experienced in America. Through the NSIC we can help share the truth and hope in a better future.
