

The Attacks Against Our Election Systems

Patrick Byrne is in the Economic War Room with his new first-hand account of what happened in the 2020 election. Through his team's research they claim to have found documented foreign interference with China flipping the presidential results in five states. Also, more details on tactics used that include the strategic interruption of counting and vote counts being shut down in targeted counties. For your briefing this week Patrick shares additional highlights from his new book, ***The Deep Rig, How Election Fraud Caused Donald Trump to Lose the White House.***

WARNING: Our Constitutional Republic is under attack and it is critical for everyone to be alert as related to election integrity and the upcoming 2022 election. With the House passing H.R.-1 and moving a bill to the Senate, our ability to have fair elections is at risk like never before.

Your Mission: To better understand the 2020 election results, to ensure fair elections in 2022, and to stop the Senate from federalizing the election with this dangerous voting bill.

Ep. 4-135 (OSINT) Open-Sourced Intelligence Special Report. This briefing includes thoughts and comments from Patrick Byrne and Kevin Freeman in the Economic War Room. Byrne is a libertarian who did not vote for Trump and has publicly criticized him. That said, he believes the Election 2020 was rigged, and that should be objectionable to every person who believes, that a "just government derives its power from the consent of the governed."

1. Byrne Shares About *The Deep Rig* – A first-hand account of what happened in the 2020 election.

“This election was rigged and I’m quite confident in saying that really. You know, the evidence that it was rigged is out there for anyone to see. They just haven’t put the pieces together.” –Patrick Byrne

Case Study - The Pattern of Election Fraud

The pattern is like the Philippines, Serbia, and several African countries.

- » A goon in power brings in the systems. He knows he’s going to lose the next election.
- » They have the election, and for some reason on the day of the election, or the day after, they shut down counting.
- » And after things are shut down and they open up counting again, there’s this big surge for the goon.
- » Then he stays ahead the rest of the way through the election.

A look at America’s 2020 election in the six key strategic states.

- » When you see interruption of counting it is typically associated with election rigging.
- » We saw an unprecedented event where vote counting was shut down in six places.
- » The six cities are very special as they are the anchor cities of swing states.
- » You flip these counties and you flip the swing states.
- » To steal the country, you don’t have to cheat in 3,600 counties, you just need to cheat in six counties.
- » The counties are in Vegas, Phoenix, Milwaukee, Detroit, Philly, and Atlanta. They flip the six counties, which flips the electoral college which flips the country – magically this is where it happened.

“Those six counties are the ones that on November 4th you woke up and it was because a water pipe burst or something like that. It turns out in Atlanta the urinal in the basement overflowed the day before. In those six counties they needed to cheat like crazy and they found a way to do it.” –Patrick Byrne

Ask yourself the odd of those six counties being the ones that had to stop counting. DOES IT SOUND LIKE SOME RIGGING WENT ON?

2. There were more cases of election fraud than you realize.

- » There were a total of 85 court cases. The truth is, it is not like the media narrative wants you to believe. These cases were not all thrown out.
- » Twenty-five were thrown out on the grounds of “no standing.”
- » They did not look at evidence, instead they tried to find technicalities.
- » What you have not been told is 22 have worked through the system and reached judicial resolution.
- » Of the 22, in 15 of them judges found election fraud. There are still a few dozen lingering.

“In a Mississippi case decided recently, it dealt with a June 20 primary and it was a shoot-out between one Democrat against another Democrat. And the case was resolved in the courtroom of another Democratic judge. And in that case. The judge ruled that 78% of the mail-in ballots (the Democrat mail in ballots from last June’s primary) in one of the congressional districts were fraudulent.” – Patrick Byrne

3. According to Byrne's research, China flipped five states in the 2020 Presidential election.

- » There is data that has been obtained (comprehensive volumes of data) that show it absolutely the case that this was rigged!
- » In each city or in each of these states, it was a cocktail that was mixed differently depending on local conditions.
- » Byrne's and Lindell's team have significant information about the tactics used in the different states.

"One of them is incontrovertible. We have them, we have them dead to rights. It's getting turned into legal briefs as I write. It's also getting turned into documentaries as well through Mike Lindell. With this information there was massive foreign interference and we see just how they did it. And we have the computer forensics that establish beyond one hundred percent certainty what was done. This is the actual computer forensics that establish what happened and in particular there was there." –Patrick Byrne

"This will be in a court case that's being filed. There is evidence that China flipped five states here. Twenty hacking attacks in China and a total of a total of 2.1 million votes were flipped from Trump to Biden. Not all of those attacks came from China, but twenty of the attacks came from there. I'm not sure what the total number of votes were for just the Chinese attacks, but they alone, I think, were 40 or 50 percent of the votes that got flipped. So probably about a million votes can be attributed to those Chinese attacks and those million votes themselves change the election."

–Patrick Byrne

4. Patrick Byrne says the data is coming out that will be incontrovertible and that it will prove that it was a stolen election.

A look at what should we do about it? What are the kinds of things that America can do to ensure election integrity? Patrick Byrne's insights included:

- » Stay calm. Do not be violent!
- » Byrne discussed how he goes from certainty to speculation. When I get into remedy that is speculation. "Do I think a judge is going to bang a gavel and say, Donald Trump, you're now president? I don't think so."

- » I think that they're going to have to argue that there needs to be a new election, either nationally or just in certain counties or certain states. They need a new election or they must open the ballot boxes.
- » What I really think they should do is open the ballot boxes. These machines were sold to the public on the grounds that there's always a paper ballot backup.
- » The voting machine companies have always stated, 'If there's ever a controversy, you can always just open the boxes and open and count the paper ballots.' The same people who said that for years, since November 4th, have now been fighting against actually opening the boxes and looking at anything. They're fighting in Maricopa and in Georgia, with everything they can. The secretary of state the other day said, 'Well, you can't look at the ballots, but we'll let you look at digital images.'

"You know, it's really funny. The same people who sold it on the grounds that you have total transparency have been fighting against any transparency. What we're going to present, I think should make them be transparent." -Patrick Byrne

Byrne's proposed resolution is as follows:

- » I think the simplest thing to do, frankly, is to open up all the ballot boxes in every state or at least in those six key states, count them on live stream TV for the public.
- » Next, that information gets given back to the state legislatures and they recommit their electoral votes.
- » So it's still there. We're just backing the system up to January 5th and we're going to get the data out there. And the states recommend their legislatures meet and redecide their electoral votes.

“The problem is, I think when they open those ballot boxes, what they’re going to do and count, they’re going to discover that there’s **about 20 or 30 House seats that were stolen from the Republican Party and a handful of senatorial seats**, perhaps at least **two.**” –Patrick Byrne

The need to STAY ALERT as it relates to new laws:

- » We will have to watch every law that they’re passing.
- » Is every law passed now challengeable where people can file lawsuits on the grounds of what’s happened?

ATTENTION:

“I can just tell you what happened. What the data shows is ironclad. This was rigged from overseas, but there’s all kinds of different layers to this rigging. And they’re going to discover that when they open the ballot boxes and count.” –Patrick Byrne

5. What we can do going forward to ensure election integrity?

- » We have laws in the process of being changed. Get engaged!
- » Information is Power. Sign up for Patrick’s newsletter at DefendingtheRepublic.org, which is sort of the core of what we’re doing. Our newsletter is going to keep you informed.
- » Get involved in your local community election process. That’s probably the most significant thing you can do.
- » If you train for four hours, you can be an election observer. That’s not enough. You need to do the two days of training so you can then work in the precinct and be the precinct captain. This is especially true in these six swing states, plus Ohio, Florida and Texas, You’ve got to get involved.

What we learned from the 2020 election is that these goons have shown that they will come on Election Day, they’ll try to just out goon you.

- » We need people to get involved who are not afraid of confrontation.
- » We don't bring violence. They are the goons. We don't bring violence.
- » On the other hand, we need people who are going to get involved and who are not going to get muscled around and intimidated by a bunch of goons who show up and start screaming in their face on Election Day.
- » You need to do that for November 2022, which is only 18-19 months away. Get started in the process, that's the most important message!

"I would say, you know, there's a group that say it's like Bikers for America. I'm hoping they get involved in the sense of those guys who aren't going to get intimidated. We need people like that because these goons are showing up and physically trying to intimidate poll workers and poll observers." –Patrick Byrne

The public has to be alert and manage 2022. That's the default setting you've got.

"Know that in the meantime, Sydney Powell, Mike Flynn and myself and some other people are still on November 2020 case and we're cracking open and exposing it." –Patrick Byrne

6. Watch out for HR-1, and now the Senate Election Bill. Patrick Byrne shares his thoughts below:

- » What's going on is these guys know they rigged the election and they know if there's a new election, they're going to get slaughtered.
- » America has seen their true colors and they're **a bunch of authoritarians.**
- » What they're trying to do is they need to change the laws and they need to change the electorate.
- » They're trying to change the electorate through their citizenship policy because **they can't win an argument.**
- » We've seen the left go from saying, we should allow authoritarian socialism because it's scientific. Well, that kind of fell apart by the 1980s. Then they were

kind of quiet for a decade. Then by about 2000 it became socialism because it's the only ethical thing to do. Socialism then became "socialism because you're racist," about 10 years ago. Then five years ago it became "socialism because shut up." You're not even allowed to say anything.

7. The War on Free Speech and Patrick Byrne's new book.

"I've never been on Facebook. I had never been on Twitter. But I started on Twitter when I left Overstock and I got up to quarter million followers during this election mess. And they cut me off a couple of weeks ago." -Patrick Byrne

We need to change how we approach this censorship. Is it time to pull away and just withdraw?

If you're ever in a narcissistic relationship with somebody, you find yourself doing things like saying, "Well, OK, next time I'm going to play it this way. Next time I'm going to go that way and they won't be able to cheat that way again." Well, you never can really cut them off because they keep changing the rules.

With the mainstream media and really the left, we're in a narcissistic relationship with them. They're not committed to truth or anything. They're just extracting. They're cheating. There is no engagement with them that matters because they don't follow the rules of logic law or and they're not afraid of bringing violence to the equation.

I think it's time to just disengage and find alternative platforms and media, like One America News or [BlazeTV](#). Look at Lindell's new platform, [Frank](#).

An Amazon problem: The Deep Rig is already being buried.

- » And at first it was going off fantastic on Amazon.
- » Then you had to really search to find it and it seems like they've were hiding the book.
- » They haven't canceled it, but they have been hiding the book.
- » DIRECT LINK TO BOOK - [CLICK HERE](#).

"I love that Bezos did this because I think he has besmirched his name in a way that will be a stain on his name forever, that no amount of money takes off. He's a traitor by doing this because it's going to turn out that we were right and he took part in knowingly or unknowingly, he took part in the cover up." -Patrick Byrne

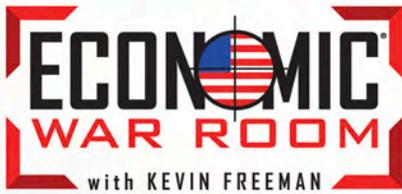

Why You Should Care:

- » Trust in our election system is at risk and transparency is critical.
- » 2022 is only a short time away and the radical left is trying to impose their authoritarian power through the "For the People" S-1 legislation.
- » Every radical piece of legislation being forced through by Congress may not even be legitimate and subject to lawsuits.
