

## Dr. Ben Carson's Formula to Heal America

Dr. Ben Carson joins Kevin Freeman in the Economic War Room to discuss the importance of faith, liberty, community, and life as the foundations of America. These are the principles that have guided him through life. As founder of The American Cornerstone Institute, Dr. Carson is using these same principles to focus on healing America by empowering Americans to act and communicate. He understands the war being waged on America and shares what he is doing now to help point our nation toward common good.

We must fight back against modern day forces that infringe on our God given rights of life, liberty and the pursuit of happiness.

**Your Mission:** To learn more about The American Cornerstone Institute and how you can focus on healing America through faith, liberty, community, and life.

1. **Dr. Carson's background shows how any individual can, with hard work and study, change the direction and course of their life.**

"Don't ever let anybody pigeonhole you, except for God, let Him pigeonhole you!"  
-Dr. Ben Carson

### Case Study - The Power of Education and Carson's formative years.

"My parents got divorced when I was eight and my mother had less than a third-grade education. But she understood the power of education. She worked as a domestic two or three jobs at the time, cleaning people's houses. But she was also observing while she was cleaning those houses. And she said, why are these people so successful? Why do they live in these beautiful neighborhoods and these beautiful homes, and she concluded that was because they did a lot of reading and studying, they didn't spend all their time sitting around watching TV. So she came home and imposed that on us, my brother and myself. And we were not happy at all. We were, in the days that we would have called the social services, but we had to do it (reading and studying). And what an incredible difference that began to make in my life as I started reading about scientists and surgeons and explorers and entrepreneurs. And I started to realize something. What happens to you is up to you."

### Dr. Ben Carson – On his transformation from a left-leaning Democrat to where he is today.

- » "I was a liberal, left-leaning Democrat. And then I did something that you're not supposed to do if you're Democrat. I listened to a Republican. I listened to Ronald Reagan.
- » And I said, 'He sounds just like my mother.' He said the same things as my mother did in a different way.

This was so important for me because I was seeing so many patients at that time in East Baltimore who were dependent on a system, who were perfectly healthy people. And I said, you know, **we have a system that is making people dependent. That's exactly the wrong thing. We should be looking at ways to make people self-sufficient.** And I really begin to change the way that I thought and did things at that point."

PAGE 2

**2. Like the 80's with Reagan, America is at a turning point.**

- » I'm very hopeful that people will recognize that this is a turning point.
- » We're at the peak right now and we're going to decide which way are we going to go left or right.
- » It's not about Democrats or Republicans. It's about America and the American way and standards.

---

“Don't be duped into believing anything other than the fact that there are those who want to fundamentally change America into something else. You know, right now, we're the beacon of freedom, justice and liberty. Now, they want to change it to you give the government all control and they'll take care of it from cradle to grave.” -Dr. Ben Carson

---

**3. Dr. Carson forms the American Cornerstone Institute to focus America on faith, liberty, community and life.**

**A look at those foundational cornerstones that allowed this nation to go from a bunch of ragtag militiamen to the pinnacle of the world in record time.**

- 1. Faith-** first on the list of those cornerstones is our faith. We had faith in God, and it was that relationship with God that taught us to have relationships with each other. Love your neighbor, forgive people, work together, Judeo-Christian foundational values.

When you're dealing with communism and socialism, their goal, of course, is to replace God with government.

2. **Liberty** – Our nation was conceived in Liberty. Why did people come to America in the first place? Because they wanted to be free. They wanted to be able to live their life the way they wanted without somebody with their foot on their neck, telling them everything they could and could not do. Sort of like what we're experiencing with the covid-19 pandemic, but on an even broader scale.

**Liberty Warning:**

"Some people say, 'We're still a very free country.' Do people now stop and say, 'Can I say that?' You know, 'Can I do this?' That's a real problem, and just because it's not officially imposed by the government doesn't make it less of a problem. If it's imposed by tech firms, the media, and government is compliant with it, it's every bit as devastating."

It seems like the only liberty that the left wants us to have are broad sexual promiscuity and the ability to change your body and to smoke any drugs as you want or whatever. Those are the liberties that they think are important.

What about 'I want to start a business of my own' or, 'I want to raise my family a certain way,' or, 'I want to build a home here, I want to use my property a certain way.' Those liberties they deny us. But if we want to get on sex, drugs and rock and roll, that's OK.

**Lessons In History:**

Karl Marx and Lenin and Mao talk about conquering America and one of the ways to do it is to erode our moral values, erode the family structure, erode their faith in God, because they knew that as long as we had those things, they had no chance of ever overcoming us.

Khrushchev reportedly said 60 years ago, "Your children or grandchildren will live under communism and we won't have to fire a shot."

**He knew that what you had to do is:**

- Gain control of the educational system so you could indoctrinate the kids,
- Gain control of the media, so you could spoon-feed the population,
- Give them what you want them to hear, completely exclude what you didn't want them to hear,
- Replace God with government and,
- Create such enormous national debt that you could justify massive taxation and redistribute the wealth

It is all part of the 45 goals of the communist party in America that were published in the Congressional Record in the 1960s (based on W. Cleon Skousen's The Naked Communist).

**3. Community** – Community is what gave us so much power.

In the past, America had communities all over this country, but many cases they were separated from everybody else by 50 or even 100 miles. They had to learn how to work together. If a farmer broke his leg during harvest time, everybody else, helped harvest his crops. They didn't ask about his politics. They would just help. It was that ability to work together that made us into strong communities, made us into strong states, made us into a strong nation.

Today, we have a situation that is encouraged by the media and politicians where that person, who was your good neighbor for 20 years lives across the street from you, is now your enemy because they have a different yard sign.

**Now, you know, we obviously are not enemies if we have differences of opinion. But we're allowing people to drive that narrative and particularly to divide us on things like race.**

"You see this critical race theory and all this craziness about everybody being a racist and society being racist. And you probably saw a few weeks ago even a school that had a fir tree emblem that was wrong because that fir tree reminded them of trees that they hung people from." –Dr. Ben Carson

**We need to fight that very strongly and recognize that we, the American people, are not each other's enemies. And the real enemies are those who are trying to divide us.**

**4. Life** is the fourth cornerstone.

You know, there was a time when we valued and treasured every life. But now we have less reverence for life from cradle to grave. Babies are being slaughtered in our society, the homeless, the drug addicts, the mentally ill just being shoved out of the way as long as they don't get in our way. You know, this is not who we are and that's not valuing life. And, you know, Jesus died for everybody. Every life is precious. And we need to understand that. It will drastically change the way that we treat people.

"We've put money over people. And that's a very sad thing." –Kevin Freeman

**CASE STUDY:**

"One of the things that we at the Cornerstone Institute do is hold town halls and roundtables around the country. I found that to be very effective as the HUD secretary, even going into radical places like San Francisco to sit down with people on all sides."

**KEY INSIGHT: You put the facts in the middle of the table and you say, 'Let's talk about this issue based on the facts.'**

- This is not based on your ideology,
- This not based on your politics,
- It is on the basis of the facts only.

Secretary Carson made a lot of progress doing that with HUD and now with American Cornerstone Institute.

#### 4. The ACI vision going forward:

"I hope 10 years, 20 years, 50 years that ACI is a real foundational pillar of keeping America on the straight and narrow and helping us to realize that America is not a place. America is an idea. It's an idea about freedom and liberty and justice for everybody.

You know that those words should not just roll off of our tongue when we're saying the Pledge of Allegiance, but real liberty and justice for all.

We should really be the kind of place that espouses that, and makes sure that it's a reality. And that's what I want us to do. And I want to not allow this country to get off the track. You know, we've gotten off track. We're going to get back on it and we're going to stay on the track." -Dr. Ben Carson

#### The Plan:

- **Education Programs** – Helping to inform Americans what is really going on.
- **Distributing this through new forms of social media without the cancel culture.**
  - New networks like Skylab and others are being developed to allow people to express themselves.
- Also, ACI, is launching **the Little Patriots organization** to educate our children on America's history and why it is a light around the world.

"It's a bad business decision for Facebook and Twitter to offend half of their customer base or Major League Baseball in Georgia or Coke. At least seventy-four million people voted for President Trump and Coca-Cola is willing to throw away seventy-four million customers. That sounds like a bad business." -Kevin Freeman

**5. The Little Patriots - an organization like the cub scouts but with an emphasis to learn true American History.**

We recognized that it was Karl Marx and Vladimir Lenin who said, "give me your young people for three or four years and I'll have them for life." We had to have a way to counter these threats.

**The Little Patriots will learn:**

- » What made America into a great country?
- » About some of our founding documents and why they exist and they're able to recite a lot of these things, just like the Cub Scouts might be to recite a pledge or a motto.
- » The emphasis being this is a great country!
- » We're using this in a positive way, teaching youth what it is to be an American.

There's a reason that you have these people pulling down statues and trying to rename everything and rewriting our history. It's because your history gives you your identity and your identity gives you your beliefs. And if you can obliterate that, people become very easy to manipulate and very easy to lead.

"Destroying our identity and beliefs is very problematic. Not only in our society, but across the world. And you saw that with ISIS when they would go into a place and conquer. Yes, they would destroy all the history, the statues, the museums, everything." -Dr. Ben Carson

---

**"America was made for an educated populace. People need to read. They need to understand historically what has happened. I even tell people read books by people like Saul Alinsky, Rules for Radicals. So you can see exactly what's going on."** -Dr. Ben Carson

---

6. As radical leftist groups target our children and education, the NSIC Institute will be teaming up with American Cornerstone Institute to preserve Liberty, Security, and Values through your investments.

- » We're targeting people where it counts, in their wallets with money and trying to help people learn to weaponize their money.
- » You and I have the same vote as an 18-year-old. But the 18-year-old doesn't have the same money that we have. So we need to take the resources that we have and use those to help preserve the culture and pass to the next generation.
- » Unfortunately, we know Wall Street's gone "woke." The NSIC institute is training financial advisors because the clients don't want all of the "woke" investing. They don't want E.S.G. they really want Liberty, Security, and Values.
- » And three things we focus on which encompass the ACI four principles, the four cornerstones. Our goal is to train 10,000 financial advisors representing \$1 trillion of investment capital.

**The NSIC will be working with** the American Cornerstone Institute to help us pass those values on through people's money and investing.

"We're on exactly the same wavelength. And, you know, I believe in synergy. We are absolutely thrilled to work with you." -Dr. Ben Carson

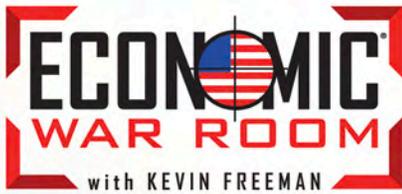

## Why You Should Care:

- » America's identity and values are under attack.
- » There is an organized plan to take down America as outlined in the Naked Communist.
- » The American Cornerstone Institute is focused on Faith, Liberty, Community and Life in America. It was formed to educate and counter these efforts.
- » The communist plan to take down America has been executed perfectly, it is time to fight back with education and restoring America's identity.
- » Dr. Ben Carson has the integrity and insight to help lead this initiative focused on regaining America's identity.
- » It is time to put politics aside, look at the facts, and build real solutions.
