

## All About Your Future: How the Left is Using Economic Warfare to Destroy You

The ancient myth of the Hydra explains that if you cut off one head, two grow in its place. It sort of feels that way when dealing with the Marxist/Socialist threat. There isn't anything left unscathed by the extraordinary push to collectivism. And your very life and way of life are threatened.

 **ATTENTION:** This may be among the most important briefings we have ever produced. You **MUST** read and share it with your friends, neighbors, and co-workers. It's that important! The video version is available for all to watch as well.

We will outline another element of the elitist control plan and then explain what we must do to stop it.

There is still time but don't think this can wait until the mid-term elections. The time to act is now. Virginia and New Jersey prove that people don't want Marxism forced on their families. Yet, immediately after their election defeat, the establishment crammed down mask and vaccine mandates.

"For the good of us all," they say, "you must comply. Those who do not comply will be punished."

 **CAUTION:** Don't think this will end with the pandemic. The playbook is already drawn up to use climate hysteria to take full control over the economy and destroy your private property rights.

- Here's the GOOD NEWS. It is not too late to stop the Marxist takeover but we must act now. The elections in Virginia and New Jersey showed that we still have the people with us and they are ready to stand up.
- This cannot wait until the mid-term elections next year. Our enemies, both foreign and domestic have plans underway to make the midterms irrelevant. With God's help and our work, we can throw in a monkey wrench and save the Republic. But we have to act **NOW**.
- This may be among the most important episodes and battle plans we have ever produced. It's an absolute warning. It's all about YOUR FUTURE. The Left is Using Economic Warfare to Destroy You and Your Family.
- This briefing will cover **how we can stop them!**

**Your Mission:** To understand how the left is using Economic Warfare to Destroy You. This Mission is about protecting your future . It is critical you go through the briefing and follow the two action steps at the end of this briefing.

“Imagine a Bond villain with a diabolical plot to destroy the American energy industry and use its bankruptcy to disrupt the American economy. This would put millions of Americans out of work and make America hostage to Russia, China, Saudi Arabia, and Iran. Unfortunately, this isn’t a spy movie, it is reality. And one of the lead perpetrators was trained as a communist in the Soviet Union and even has a Bond-villain name, Saule Omarova. You can’t make this stuff up.” –Kevin Freeman

**THE “BIG EVILS” THEY TELL US THAT AMERICA IS FACING – WE HEAR OFTEN ABOUT RACISM, SEXISM, and CLIMATE. A closer look at what is really happening behind the scenes.**

### 1. The War to Defeat Racism.

- » Racism is a societal problem, but it is not uniquely an American problem as anyone who has traveled the world will tell you. And it’s not just a problem in free societies. Dictatorships are notoriously racist, hence the idea of Hitler and Nazis.
- » Racism is not strictly a capitalist or free market problem. Communist nations have always been more racist regardless of what they claim. That was true in Soviet Russia and it’s true with Communist China today as they regularly violate the human rights of minority populations like the Uyghur Muslims.

### The Solution to Racism is Free Markets not Dictatorships or Mandates.

- » Free markets are the solution to racism, at least how any reasonable person defines it. **It is foolish and anti-economic to hold talent back based on skin color.**
- » Yet, we have been told that racism is such a threat to public health that the BLM riots were acceptable in a pandemic.
  - The people who told us to mask up and stay at home avoiding crowds, cheered on the rioters. You can't leave your house for church or work but by all means it's alright to riot.
- » Think you are not Racist. **Being color blind is itself now considered racist.**
  - You have to actually prefer one race over another and feel ashamed if you are the wrong race. In other words, in order to not be racist, you have to be, well, **racist.**

### 2. Sexism – It is not Enough to Provide Equal Opportunity.

- » Another “big evil” to address is sexism. Here again, the “solution” is a top-down control agenda.
  - It's not enough to provide equal opportunity. You have to give preference to women over men.
  - Good News, there's hope for biological men. If you decide you are actually a woman, you not only qualify for preference, you become eligible for the most preference.
- » While that may sound unbelievable, Take a look at women's sports and see how biological men are starting to dominate.
  - It has gotten so absurd that transgender lesbian women, those with male biology, are now demanding that biological lesbians date them and sleep with them. Think about that for a minute and it will make your head hurt.
- » We are told that sexism and transphobia are a great public health crisis and only top-down, authoritarian mandates and controls can provide a solution. Don't question! Just go along. If you fail to conform, you will be punished.

**WARNING:** Your Rights are at Risk!

Take the Constitution and the Bill of Rights and shred them. No more free speech. No freedom of religion. No right to property. No right to conscience. The elites know best, and you will conform or be punished.

### 3. Climate Hysteria – A Planned Crisis.

- » You are about to see a “whole of government” push on the Climate Hysteria that will make you long for the good old days of the Pandemic.
  - You are already feeling it with inflation, food prices, and energy costs. This isn’t a sad unintended consequence. It’s a FEATURE of their plans.

### 4. Creating a Crisis that Hurts People to Grab Power.

- » What is so evil about the Left’s plan is that they are intent on creating crisis that hurts real people in order for them to grab power. They pretend to be humanitarians as they hurt humans.
- » You are about to be inundated with climate change hysteria as if it were a massive asteroid about to hit the earth and wipe us out like the dinosaurs.
  - This will be used as an excuse for a planet-wide response that will make them the masters and you the subjects.
  - This is the sort of thing that Lenin, Stalin, Hitler, Mao, Castro, Pol Pot, and Chavez did. And in every case, the people suffered.

The difference between those tragedies and the one you are facing is that America stood strong as a beacon, rescuer, and refuge. If we lose the battle today, there's no place to go.

**ALERT:** This is an existential threat to your liberty, your family, and your way of life. And it's a threat they are claiming, when in reality THEY are the threat.

**5. ESG Movement is really just a privatized version of enforcing climate change and their version of anti-racism, and anti-sexism.**

- » We've explained how the ESG movement for investors is really just a privatized version of enforcing climate change and their version of anti-racism, anti-sexism.
  - The problem is that the Biden Administration is ready to supercharge this anti-liberty agenda with the full force of government. And they are not hiding it at all.
  - And we do not make these warnings lightly. Remember that we were early in explaining the China threat.

**Together Economic War Room® Patriots Have Stepped up and Made a Difference!**

- Economic War Room provided practical steps to address it, including stopping the Thrift Savings Plan of the United States from funding Communist Chinese weapons development. We covered that in Episode #65. We gave Action Steps in our Economic Battle Plan and YOU, our viewers, responded.
- We helped stop that nonsense. Otherwise, our servicemen and women would have been forced to fund the very weapons designed to defeat them.
- Based on Episodes 80, 95, 101, 102, and 108, YOU followed our Economic Battle Plan and helped convince the Labor Department. Retirement plans SHOULD NOT be progressive slush funds promoting their leftist dreams. Under Trump's Labor Secretary, that was stopped!

**6. We have more work to do, with even more mandates.**

- » **Unfortunately, just like Hydra, the leftists came back with plans to mandate ESG.**  
→ Your retirement plan may soon be forced to fund the demise of your Constitutional liberty. Think that's insane? It gets worse.

**Energy Independence has been destroyed due to leftist policies.**

- In Episodes 3, 4, and 28, we explained just how America could become energy independent and keep a lid on both energy prices and inflation.
- Again, YOU, our audience helped push America in the right direction based on the Action Steps we outlined.
- In Episode 85, we provided actionable intelligence on the markets when the price of oil was briefly negative.

There was a great buying Opportunity. But just as we defeated the tyranny of OPEC and Russia, **they've come roaring back under Biden policies, as we warned in Episode 126.**

The point is this. There are many battles underway in the Economic War and they have a very real impact on your life and family.

The Left is Playing for Keeps and Economic War Room Patriots were ahead of what was to take place.

- We warned you about how the Left is Playing for Keeps in Episode 111 and that is playing out just as we described. That was over a year ago, before the presidential election. Did you watch it? Did you follow the Battle Plan? Were you prepared?

**Economic War Room briefings warned Inflation was predicted prior to others reporting on it.**

- » In Episodes 124 and 125 we sounded the warning that inflation was about to return in a big way and that would impact everything.
  - We said that “Things Have Changed,” and that included action steps to follow with your investments.
  - By the way, when we warned about serious inflation, the Federal Reserve, the government, and all talking head economists said it couldn’t happen. They said inflation was “transitory.”
  - Well, the most recent Consumer Price Index shows inflation at the highest level in over 30 years. And that’s not the whole story.
  - The official inflation statistics massively UNDERSTATE the real price hikes you are facing. The Biden team pretends it’s no big deal. The truth is, it is really part of their plan, and they are executing it perfectly.

**7. The Left’s plan to destroy the American Energy Industry and Change the Banking Industry to Disrupt the American Economy.**

- » Imagine a Bond villain with a diabolical plot to destroy the American energy industry and use its bankruptcy to disrupt the American economy. This would put millions of Americans out of work and make America hostage to Russia, China, Saudi Arabia, and Iran.
- » Once empowered, this Bond villain vows to eliminate banking as we know it.

“Unfortunately, this isn’t a spy movie, it is reality. And one of the lead perpetrators was trained as a communist in the Soviet Union and even has a Bond-villain name, Saule Omarova.\* You can’t make this stuff up.”—Kevin Freeman

**\*President Biden’s Pick to be the Next Comptroller of the Currency**

Note: As the publishing of this briefing, 5 democrat Senators are resisting her nomination and she has no Republican support. The prospect of Saule Omarova becoming America’s head of the Office of the Comptroller of the Currency looks unlikely. Currently five moderate Democrats have told the White House they will not support her nomination. [THE QUESTION IS WHY WOULD THE BIDEN ADMINISTRATION, AND 45 DEMOCRAT SENATORS STILL SUPPORT HER WITH HER BACKGROUND AND BELIEFS?](#)

**Saule Omarova is President Biden's pick to be the next comptroller of the currency. That would give her enormous regulatory authority over the entire American banking system.**

» She, in her own words, hopes to bankrupt the fossil fuel industry.

**"If you take away our financial system and our domestic energy supplies, you pretty much destroy the American economy."** –Kevin Freeman

From *The Wall Street Journal* on September 29<sup>th</sup> of this year:

<https://www.wsj.com/articles/comptroller-of-the-economy-saule-omarova-joe-biden-nominee-11632937029>

"President Biden checked off another progressive identity box last week by nominating Saule Omarova as Comptroller of the Currency. Some Trump appointees were ridiculed for having supported the elimination of their agencies. Ms. Omarova wants to eliminate the banks she's being appointed to regulate.

The Cornell University law school professor's radical ideas might make even Bernie Sanders blush. She graduated from Moscow State University in 1989 on the Lenin Personal Academic Scholarship. Thirty years later, she still believes the Soviet economic system was superior, and that U.S. banking should be remade in the Gosbank's image.

In a recent paper "The People's Ledger," she proposed that the Federal Reserve take over consumer bank deposits, "effectively 'end banking,' as we know it," and become "the ultimate public platform for generating, modulating, and allocating financial resources in a modern economy." She'd also like the U.S. to create a central bank digital currency—as Venezuela and China are doing—to "redesign our financial system & turn the Fed's balance sheet into a true 'People's Ledger,'" she tweeted this summer.

What could possibly go wrong?????"

**Forget Private Banks, The US Government will be your banking Choice.**

» If you oppose the IRS looking at your \$600 banking transactions, just imagine what they could do if the only banking choice you had was the U.S. government itself.

→ This is the plan and with this nomination, they are saying the quiet part out loud. Even Treasury Secretary Janet Yellen thinks Ms. Omarova is too extreme but she's afraid to admit it publicly.

→ Hear for yourself one of Ms. Omarova's statements on a Zoom call with the Jain Family Institute this past February. It's been preserved on YouTube:

(22 seconds)

**Ms. Omarova said, "we want them to go bankrupt."**

→ Her comments echo things we have heard from other politicians as well in the past few years. The video below is candidate Obama from 2008:

(12 seconds)

→ We could show you clips all day of Biden saying, "no coal plants in America," even though he admits China is building them at a rapid pace. Or Biden promising that he would ban fracking and eliminate pipelines.

→ These aren't glitches or gaffes. These are features of Marxist energy policies they intend to force on you.

**8. It is not about protecting Humanity, Instead it is shifting power to China and letting them pollute even more.**

- » And it's not about protecting humanity. President Biden and his climate Czar John Kerry know that for every fossil fuel plant we close, Communist China will open two.
  - And what will China do with all this energy?

They will make the solar panels and wind turbines and supply the critical rare earth minerals we use to produce electric cars.

- In other words, they will be making money as we grow ever more dependent on them.
- » But this won't save the planet from their claims of climate disaster.
  - President Biden also understands that just because we stop producing coal, oil, and gas, America will still need it. How else can you explain his begging that Saudi Arabia and Russia produce more oil, not less?

**9. It is not about Human Rights Either. John Kerry just looks the other way when it comes to Human Rights.**

- » John Kerry is defending Communist China.
  - He is asking Congress to not sanction China for blatant human rights abuses of their minority Uyghur Muslim population.
  - The Uyghurs have become essentially slave labor to produce solar panels. They are also subjected to torture and forced human organ harvesting along with systematic repression.
  - But somehow the solar panels are more important?

Look at this headline from Real Clear Politics on November 1,

**John Kerry asked about slave labor in China and says that is not in his lane.**

[https://www.realclearpolitics.com/video/2021/11/10/john\\_kerry\\_asked\\_about\\_slave\\_labor\\_in\\_china\\_not\\_my\\_lane.html](https://www.realclearpolitics.com/video/2021/11/10/john_kerry_asked_about_slave_labor_in_china_not_my_lane.html)

→ Consider this from Will Coggin at [TownHall.com](https://townhall.com):

**Kerry's Call: Solar Panels Matter More Than Human Rights.**

- <https://townhall.com/columnists/willcoggin/2021/11/13/kerrys-call-solar-panels-matter-more-than-human-rights-n2599008>

Kerry has been lobbying his old pals in Congress to try to [stop the Uyghur Forced Labor Prevention Act](#), according to a report by the Washington Free Beacon.

- The bill would prohibit imports of Chinese items made by forced labor, such as Kerry's prized solar panels. (Kerry also has a reported [\\$1 million stake in a Chinese investment group tied to human rights abuses.](#))
- Clearly, Kerry thinks that the gains we have made with China on combating climate change are worth papering over the [torture, rape, and detainment committed by the Chinese Communist Party.](#)
- But what gains have actually been made? Almost nothing.
- China is [one of 22 countries](#) opposing the COP26's plan to reduce greenhouse gas emissions.
- China is [burning more coal than ever](#). There's an [active plume of greenhouse gases](#) hovering above China because of faulty pipelines."

Coggin goes on to explain how China has already devastated American industry, lied to us repeatedly, stolen our Intellectual Property, and built a war machine for world domination.

**WARNING - A key question: Are we "supposed to ignore all of this for solar panels which will increase our over-reliance on China?"**

- Any sensible person would say, NO WAY!
- But that is precisely the Biden Administration policy.
- Good for China, BAD for YOU!

## 10. Mandated Electric Cars, The Next Progressive Dream is to Eliminate Private Car Ownership.

### A Look at Mandates That All Cars Become Electric Vehicles and What That Means to You.

- » In Episode #165, we explained Biden's plans to eliminate fossil fuels by forcing all cars to be electric vehicles. We also explained how our power grid cannot be ready anytime soon and would collapse under the strain.
  - When you combine that push with bankrupting the fossil fuel industry, it becomes clear.

- You may have a \$60,000 car in your driveway but no way to power it. The idea of wind and solar replacing all power plants is an impossibility anytime soon.
- Yet, all new vehicles will have to be electric in less than a decade.

**It's a disaster waiting to happen. But again, this is not a mistake. It's a feature.**

**The truth is that the progressive dream is to eliminate private ownership of cars.**

### CASE STUDY – The Great Reset and The Real Goal For 2030.

The GREAT RESET promises that you will **own NOTHING** and **BE HAPPY** about it.

The target is 2030. The World Economic Forum that describes the plans for The Great Reset. The intention is to make this happen over the next eight years.

**The good news, you still have time to stop the Great Reset.**

- » We have a plan to not only stop the Bond Villain but also make a better America for your children and future generations. **Attention:** It only works if you get involved now!

“Have you ever noticed that the Villain in James Bond movies somehow feels compelled to explain the plot before they execute it? I always thought that was sort of stupid on their part. But they are so arrogant they just can’t help themselves. The good news is that this arrogance gives Bond, James Bond, a chance to foil their evil. Guess what? Real life villains are just as arrogant.” –Kevin Freeman

- » The World Economic Forum is run by illustrious figures such as George Soros types, Bill Gates, Larry Fink, and Klaus Schwab. They all sort of look like Dr. No, Goldfinger, and Blofeld, don’t they?
- » Watch a short video they recently made public. It’s sort of them “saying the quiet parts out loud,” revealing the plot:

(1:33)

### Did You Catch It? Are These Your Values?

1. Their plan is for you to OWN nothing.
2. For fossil fuels to be “history.”
3. For you to be stuck in your homes.
4. For the United States to no longer lead the world and for China to be at the center of everything as evidenced by the flag placement.
5. For you to no longer eat meat.
6. For there to be open borders and mass immigration.
7. But never worry, we may go to Mars and find aliens. You’ll love it!

**ALERT: THIS IS ALL ABOUT YOUR FUTURE! And it’s about taking America and Americans down several notches. Rather than lifting the world with Liberty and Free Markets like we’ve enjoyed over the past century, the world will drag us down. IS THIS WHAT YOU WANT?**

**Consider what you can personally do now to stop this. Your future depends upon it.**

### 11. Does it all start to make sense now?

- » The Biden Administration knows that their plans to bankrupt the American Energy industry and take over the banking system will cost us millions of jobs. They understand but they have to fundamentally restructure the American economy to take on all the illegal immigrants they are allowing through the open borders.
- » How else do you explain vaccine mandates causing workers to be fired or quit while not requiring those vaccines for immigrants who come here illegally?
- » This is a huge jobs transfer. And the tax plans they want in place are a huge wealth transfer.
- » But now, we have heard their plot.

### 12. The Plan – The Two Signature Projects Economic War Room is leading that can STOP this Marxist Great Reset takeover.

**Over the past three years, we have been preparing for this moment. We've met with dozens of the top liberty-loving leaders in America and around the world.**

- » We have two genuine Action Plans and you can play a key role in both of them.
- » This is a plan to stop this Marxist Great Reset takeover.

“Our plan involves Liberty, Free Markets, the Constitution, and Common Sense. We need your help. If we work together, we can preserve America for our children and future generations. But the time to act is NOW. Who will stand with us?” –Kevin Freeman

### **Action Item 1 – Invest in LSV: Our pro-America version of investments was designed to counter ESG Marxists Investment Agenda.**

- » LSV stands for Liberty, Security, and Values Investments. This strategy counters the ESG - Environmental, Social, Governance Agenda.
  - If you are a regular reader of our briefings, you understand the flaws and threat of ESG.
  - Our investor insights and research have confirmed Americans far prefer LSV investments that strengthen American and align with our values.

→ If you are new to Economic War Room, or just want a refresh, you are encouraged to review our prior briefings and shows on what ESG really is about.

“Ultimately, we believe that you, not Woke Wall Street, should dictate where your investments are made. If you do that, you will most certainly disrupt one of the key features of the Great Reset’s evil plot.” –Kevin Freeman

**Connecting with your advisor.** We have made connecting your Advisor with the LSV as an easy next step.

- Do you have a financial advisor? Tell him or her right now that you want your investments to be pro-LSV, not ESG.
- If your advisor has not been informed of how these investments are being positioned against America’s values, have them contact us and we will help with insights they are likely not receiving from their broker’s research team.
- Let your advisor know that you think this is a good idea for their business and your investments. Nominate your advisor at [economicwarroom.com/advisor](https://economicwarroom.com/advisor).

“I’ve heard from some of you that, ‘You’re not sure,’ if your advisor would be open to this. Not sure? Not sure if the person whose job is to work for you would be open to doing what you want done with your money?” –Kevin Freeman

## THE OPPORTUNITY FOR YOU AND YOUR FINANCIAL ADVISOR.

NSIC advisors that understand the LSV opportunity will be well positioned to grow their business and better serve their clients!

- » All we are asking is that they become educated about the very real Economic War happening from foreign enemies such as China and domestic threats like the Great Reset, socialism, Critical Race Theory, and government overreach.
- » Our investor insight data confirms that a majority of Americans are liberty-loving clients want advisors who will work with them to preserve, not destroy America.

Often we hear, "I'm not sure my advisor would be interested." If that's really true, you need a different advisor.

**IMPORTANT** - If your financial advisor does not want to participate and to really understand the Economic War being waged against America, know that there are plenty of other advisors you can work with focused on higher customer satisfaction and aligning your money with their client's values.

**CAUTION:** If we do not protect our Country, not only is your money, your livelihood, and your way of life at risk, but theirs is as well.

**Our Mission through the NSIC - The National Security Investment Consultant Institute will be a Massive Disrupter to the Great Reset, and you will be part of Saving America.**

- › We have proven repeatedly that Woke Wall Street is a threat. Starting NOW, we will be training 10,000 advisors over the next five years. We believe that will represent over \$1 trillion of your money, our money.
- › That is going to be a massive disrupter to the Great Reset because it will help fund really good ideas focused on Liberty, Security, and Values. Just imagine the great ideas and projects to take America forward.
- › \$1 trillion will represent a tipping point. America is already the "land of the free and home of the brave." We have the inertia of past liberty slowing them down and with our advisor training program, we will steal the momentum.
- › People are waking up every week. We get calls from clients looking for advisors with a small retirement plan up to some with \$20 million or more. This is not something to put off. It shouldn't wait. It can't wait.

**Trained advisors will join and participate in the NSIC Institute. The National Security Investment Consultant Institute. They will work together to address the risks of China, Russia, Woke Corporations, and efforts to end America's energy security. With a combined \$1 trillion and working together, they will make a real difference.**

- The time is now to get your financial advisor into our Economic War Room training. You do that by nomination at [EconomicWarRoom.com/advisor](http://EconomicWarRoom.com/advisor).

**ACTION ITEM 2 – Beware of Programmable Digital Currency and Help Develop a Liberty Minded Government Backed Digital Currency. Sign our Petition, go to [EconomicWarRoom.com/money](http://EconomicWarRoom.com/money). Some in Government Want To Use Your Money as a Control Mechanism.**

- **A look at why this is critical and we need to start developing this now.** We need to be prepared for the digital currency that Saule Omarova, or some other Government bureaucrat wants to force upon you.
  - While the Federal Government and Federal Reserve are essentially printing money like crazy, your paper dollar fiat money is losing purchasing power. Inflation wants to rob your retirement and your children's future.
  - Some in the government want to use your money as a control mechanism. With a digital dollar, they could decide where, when, and how you can spend your own money.
    - Is your cholesterol too high? Then your digital dollars will not work to buy a cheeseburger, even when it is fake meat.
  - The bottom line is this. Your liberty is at stake this way as well.

**THE SOLUTION**

- **The good news is that we have a constitutionally approved, liberty-minded currency alternative.**

- Imagine Bitcoin with government backing, but also backed by gold and silver.
- Imagine if it came with privacy protections and guarantees and functioned on the Blockchain.

- We are proposing the above **to the next Texas legislature and any state that is interested in preserving your liberty and protecting your future.**
- We explained all of this in Episode #146 titled programmable money. Go back and watch it. Then share it widely. If you know a state legislator, tell them this is what you want. Then have them contact us.
- I've run this idea past hundreds of leaders. They all love it, but they want to know that you want it.

It is critical that you sign the petition. We must build momentum and demonstrate that the American people have had enough!

**Finally, If you have not already done so, please consider the following:**
