

## Does Party Matter??

### Check out these provisions in the 2018 Colorado Democratic Party Platform

On July 14, 2018 the State DEMOCRATIC PARTY CENTRAL COMMITTEE met in ELIZABETH

#### THEY SUPPORT:

**"Repealing** the Taxpayer Bill of Rights (**TABOR**) and the Gallagher Amendment (regarding property taxes)." This is our strong Constitutional protection against run-away "tax and spend" government

**Infringing on our Right to Bear Arms** "firearms should be regulated as follows:

- Ban assault weapons, bump stocks, and high capacity magazines.
- Enact universal background checks federally.
- Enact restrictions: Must be 21 and must demonstrate competency with firearms to purchase a firearm.
- Prohibit the possession and purchase of firearms by people with violent criminal offenses or on terrorist watch list.
- Except for security personnel, ban firearms on K-12 schools, college campuses and allow cultural institutions to ban firearms on their premises."

**Socialized Medicine** "We support health care for all, as a fundamental human right, including Medicare / Medicaid for all. This program should be independent of employment and prioritize the health of Coloradans."

**Weakening America's Security** "We oppose efforts to build or finance a border wall between the US and Mexico, and support strategic demolition of existing wall structures."

**Weakening American Unity** "We support policies and programs, which include, elevate, and honor all students regardless of English language acquisition."

#### **Abortion on Demand**

"We support the protection of a woman's right to have a choice in all aspects of her body and health."  
"We believe all people should have access to affordable, safe, and legal reproductive health care, including abortion, and should not be infringed on by the anyone."

**Putting our Children at Risk** "We support the right of transgender and gender non-conforming individuals ability to use facilities consistent with their gender identity and expression in any public place."

#### **Stifle the Colorado Economy**

3. We support full funding to more strongly enforce the Threatened and Endangered Species programs.

#### **Unrealistic Energy Policy**

We call for state legislation that requires all utilities to provide, pursue, and achieve the goal of 100% clean, renewably-sourced power with urgency and haste, with an ideal deadline by 2030.
