WHO SUPPORTS SOLAR

FOR CLEANER,

CHEAPER POWER?

[See where the parties stand this election >](#)

Rooftop solar reduces electricity bills, cuts pollution and creates local jobs.

Nine out of ten Victorians support solar.

So what about our major political parties?

Independent assessment by the charity Environment Victoria, 22 October 2018. **Learn more at repowervic.org.au**

LABOR

Victorian Labor has announced half-price solar panels for 650,000 homes, half-price batteries for 10,000 homes and \$1000 off solar hot water systems.

GREENS

Victorian Greens support solar for 650,000 homes. They also have plans to increase access to solar for renters and apartment dwellers, plus solar and batteries for public housing and all public schools.

LIBERALS

Victorian Liberals voted against increasing the solar feed-in-tariff and have said solar will be taken up without any ongoing subsidy.
