CANADA
Though there are no estimates of the number of survivors of FGM/C living in Canada, or women and girls at risk of undergoing FGM/C, Canada has sizeable populations of diaspora communities from countries where FGM/C is known to be practiced.

COLOMBIA
Type I FGM/C is known to be practiced by the Embera indigenous people in Colombia, normally on newborn babies. Media reports also indicate that some other indigenous communities like the Nasa community may practice FGM/C.

USA
513,000* women and girls nationwide are at risk of undergoing FGM/C. The highest numbers of at-risk women and girls live in these metropolitan** areas:

1. New York, Newark, Jersey City - New York State: 65,893
3. Minneapolis, St. Paul, Bloomington - Minnesota: 37,417
4. Los Angeles, Long Beach, Anaheim - California: 23,216
5. Seattle, Tacoma, Bellevue - Washington: 22,923
6. Atlanta, Sandy Springs, Roswell - Georgia: 19,075
7. Columbus - Ohio: 18,154
9. Dallas, Fort Worth, Arlington - Texas: 15,854
