Uriah was one of those intuitive boys that could tell when you were down, and he would give you such a loving hug, there was nothing like a Uriah hug!! It brought your spirits up. We did everything together. It was just the two of us. He is so dearly missed by myself, and our family, and his friends. He touched many lives in his short time here. Not a day goes by when he is not in my thoughts. He loves animals, and nature. We would lay on the trampoline and watch the clouds and see what objects they made. And at night enjoy the full moon.
