

Braden Eugene Erickson

Age 13

February 19, 1992 -

May 20, 2005

Tolleson, Arizona

Braden died as a result of the Choking Game on May 20, 2005. He was a funny, bright, generous, sweet boy of 13 who thought fishing was the greatest past time on earth. His death was classified as suicide but he would never have done such a thing and had none of the markers for it. There is evidence that he learned about this from friends while on a trip in 2004, about a year before he passed away. After all these years, we still miss him every day and wonder what his life would have held. We sincerely hope other families do not have to endure the agony of losing a loved one to this terrible activity. Please help Stop the Choking Game.
