

Mack Jensen

Age 17

February 1992 -

July 2009

Columbus,

Wisconsin

Mack was a bright, articulate, honors student; a fit and very active young man, who worked hard and participated in many activities including, band, swimming, wrestling, football, rugby, video games; he also hunted and fished and played lots of chess with his Dad. He was very open with both of us and had friends all over the state. He had teachers, coaches and adult friends that he talked to. He knew how to have fun and wasn't really a risk taker or an over achiever, but a very active and competitive young man. My son was enjoying a great life and looking forward to so much more.
