Jordan was the best son you could ever wish for. He loved only three things in his life: his cat Milo, his hair and football. He always said he'd be a famous footballer one day and he had just made it. He was due to start playing in 2018, this was to be his year. He was our life. Everyone loved him and he loved everyone. He always made sure any new kids in school were included and never felt left out even at sport, even if they couldn't play. He was ... Simply ... The Best.

We will never get over losing him and are devastated that he has lost everything he had to look forward to in life. Such a talent taken away in an instant. Jordan, Mum and dad love u always 💕💕
