election

Get creative - make a poster with children

If you work in early childhood education or care for young children we invite you to involve the children in creating a poster with the words “**We Matter**” or “**Our Children Matter**” – to photograph and post on your Facebook page with the hashtag #EarlyLearningMatters or #OurChildrenMatter this election.

You could use objects like blocks, toys, or shoes to spell out the words, and decorate the poster with handprints, paintings by the children, stick on created objects or samples from nature. You could combine your poster style with a theme or activity related to nature, or reconciliation.

When you photograph it, you could also include children’s hands or feet around the edges of the poster, just don’t show any children’s faces.

Thanks to Gowrie NSW and Explore & Develop for creating these great posters and messages!

Any questions, please contact Carolin Wenzel on cwenzel@earlychildhood.org.au
