Case No. 17CECG03093
**DECLARATION OF BLAKE GRAHAM
IN SUPPORT OF OPPOSITION TO
PLAINTIFFS' MOTION FOR
PRELIMINARY INJUNCTION**

Date: 3:30 p.m.
Time: January 30, 2018
Dept.: 501
Judge: Hon. Mark W. Snauffer
Action Filed: Sept. 7, 2017

1 7. Since 2008, I have been responsible for reviewing handguns that are submitted by
2 manufacturers for inclusion in California’s roster of handguns certified for sale. A copy of the
3 roster can be found on the DOJ website: <https://oag.ca.gov/firearms/certguns>.

4 8. In my career I have attended at least 40 gun shows and have become very
5 knowledgeable on current laws pertaining to the sales of firearms, ammunition, and ammunition
6 feeding devices in the State of California.

7 9. I have been trained and qualified to carry several different types of firearms,
8 including: Glock Model 17 (9 mm semi-automatic pistol), multiple Glock .40 caliber semi
9 automatic pistols, Heckler & Koch MP5 (9 mm submachine gun), Smith & Wesson, Model 60
10 (.38 Special revolver), multiple .45 caliber semi-automatic pistols, and a Colt, Model M4 (5.56
11 mm machine gun). I have access to other DOJ-owned handguns, shotguns, submachine guns,
12 machine guns, rifles, shotguns and 40 mm “less lethal” launchers.

13 10. Throughout my career, I have conducted training programs in the identification and
14 handling of firearms. I have also trained other Special Agents of BOF on assault weapons and
15 firearms identification. I also have given firearms identification classes to members of multiple
16 District Attorney’s offices in the State of California.

17 11. I have also completed at least 15 firearms training courses since 1994. These courses
18 included the assembly and use of specific firearms. I have been certified as a California Peace
19 Officer Standards and Training (POST) approved Firearms Instructor/Rangemaster since 2002.

20 12. During the course of my career and training I have become proficient in the use and
21 disassembly of various revolvers, pistols, submachine guns, shotguns, and rifles. I have made or
22 assisted in the arrest of at least 30 persons for violations involving illegal weapons possession. In
23 the course of my employment I have participated in the execution of more than 30 search
24 warrants which involved the illegal possession of firearms.

25 13. I have been qualified as an expert witness regarding the identification of assault
26 weapons and other firearms in at least 15 cases in both federal and state court since 2007.

1 **REGISTRATION OF BULLET-BUTTON ASSAULT WEAPONS**

2 14. Amendments to the Assault Weapons Control Act prohibiting the possession, sale,
3 and transfer of “bullet-button” assault weapons, and providing a registration process for weapons
4 that were lawfully possessed prior to December 31, 2016, were signed into law on July 1, 2016.
5 These amendments took effect on January 1, 2017.

6 15. In my role as Special Agent Supervisor for BOF, I helped to design the public-facing
7 application for submitting registrations of bullet-button assault weapons electronically via the
8 Internet, as required by Penal Code section 30900, subdivision (b)(2). I also helped to develop
9 DOJ’s procedures and regulations for the registration of bullet-button assault weapons.

10 16. An injunction against enforcement of the regulations could significantly harm the
11 public interest, because it would directly interfere with the process for registration of prohibited
12 assault weapons.

13 17. From July 2016 through December 2016, DOJ spent six months designing and testing
14 the electronic registration system required by law.

15 18. The electronic registration system was first made available to the public on August 3,
16 2017.

17 19. Depending on the scope of any injunction, DOJ would likely need to redesign the
18 electronic registration system before accepting further registrations. The programmers who
19 created this system for DOJ are now working on other legislatively mandated projects that are
20 also on tight deadlines. DOJ does not have funding for modification of the electronic registration
21 system. DOJ would have to cut other programs and activities if an injunction resulted in the need
22 for costly alterations to the existing registration system.

23 20. The regulations at issue in this litigation concern basic procedures for registering
24 bullet-button assault weapons, as well as substantive issues relating to what and who can be
25 registered. Depending on the scope of any injunction, DOJ might need to promulgate
26 replacement regulations before it could continue to process registrations.

27 21. Even if an injunction does not necessitate new regulations, DOJ would still need to
28 redesign its procedures for processing registrations.

1 22. For example, if DOJ is enjoined from requiring applicants to provide the information
2 necessary to confirm that an applicant is not prohibited from possessing an assault weapon, DOJ
3 is still prohibited from registering persons who are prohibited from possessing a firearm under
4 state or federal law (Penal Code § 30950), and so must find an alternative method of confirming
5 eligibility to register.

6 23. In addition, a delay in the registration process could mean that DOJ would no longer
7 have staff available to process registrations for thousands of Californians. DOJ received funding
8 to hire 24 analysts and two managers to process registration applications. These are limited term
9 positions that will cease to exist one year after these employees' start dates.

10 24. There is no guarantee that modifications to the electronic registration system, the
11 promulgation of replacement regulations, or the development of alternative procedures for
12 processing registrations, could be completed without drastically shortening the available time left
13 to register, which runs through June 30, 2018.

14 25. Interference with the registration process would also directly impact public safety.
15 Law enforcement officials rely upon registration information in determining whether someone is
16 in possession of a prohibited assault weapon.

17 26. For example, DOJ relies on registration information in carrying out its statutory duty
18 to disarm persons who become prohibited or are otherwise disqualified from possessing firearms.
19 (See Penal Code § 30000 et seq. [armed prohibited persons].)

20 27. DOJ is required by law to maintain an online database (the Armed Prohibited Persons
21 System), which cross-references all handgun and assault weapon owners across the state against
22 criminal history records to determine persons who have been, or will become, prohibited from
23 possessing a firearm subsequent to the legal acquisition or registration of a firearm or assault
24 weapon.

25 28. DOJ is also required to provide authorized law enforcement agencies with inquiry
26 capabilities and investigative assistance to determine the prohibition status of a person of interest.
