

2018 FUNDERS INSTITUTE

JULY 23-25

That's A Wrap on the 2018 Funders Institute!

Last week, more than 50 funders from across the country came together to explore how to work with other systems to REALLY end homelessness. With high energy and thoughtful conversation, we learned from each other about how to prevent homelessness by collaborating with other systems like child welfare, criminal justice, and healthcare. We heard from national partners about current advocacy work and policy developments to discover opportunities for philanthropy to engage and closed the Institute by reflecting on our journeys toward greater racial equity and where we go from here.

In the weeks to come, Funders Together will provide recaps of conversations and resources from the Institute. In the meantime, you can review the [agenda from the event](#) and take a look at the 2018 [Funders Institute Twitter Chatter](#) to see highlights and takeaways from participants.

A Note About Summer Programming

For the remainder of the summer, you may notice a decrease in the amount our programming. During this time, we will be soliciting feedback from members and thinking strategically about the content and format of our Fall and Winter programming to ensure we are meeting your learning and networking needs.

If you have suggestions for future programming or feedback on past events and would like to speak with us or participate in a focus group, please email [Stephanie Chan](#), Director of Membership and Programs.

Funders Together has seen its fair share of changes this year, and we have another to add to the list.

We are always looking to highlight the impact of our members. If you would like to feature your work in an upcoming blog, [let us know!](#)

Resources

Funders Together Resources

[Census 2020 Resource Page](#)

An accurate census count is essential to our efforts to prevent and end homelessness. As funders, we can support our grantees to help ensure a fair and accurate count and can come together as a united group to support local planning, inform policy makers, and educate non-profits. This page provides resources specific to the 2020 Census and philanthropy's involvement from our partners and members.
