### Racial Inequities in Homelessness Programming Series

Funders Together is committed to addressing racial equity and helping funders understand the history and current structural issues that lead to racial inequities within homelessness and housing. As many of our members have been thinking about racial inequity in the scope of their work and have been searching for guidance, tools, and resources, Funders Together is excited to announce upcoming programming focused solely on racial equity and homelessness. We will be offering a variety of programming including webinars, online resources and toolkits, and a community of practice for those interested in deepening their understanding of racial equity in homelessness and how to shift their grantmaking. More information on this programming series is coming soon, but we wanted to provide you with an upcoming opportunity you can register for today!

[Webinar: SPARC Phase One Study Findings](#)  
October 25, 2018 | 2:00 p.m. ET / 11:00 a.m. PT

In March 2018, SPARC (Supporting Partnerships for Anti-Racist Communities) released findings from the first phase of their work to understand and respond to racial inequities in homelessness. The headline is that people of color are dramatically more likely than White people to experience homelessness in the U.S. and that in order to end homelessness, we must address and confront structural racism. This webinar will give an overview of the findings and expand on what the findings mean. It is the first in a series of racial equity focused programming we will feature in the Fall and Winter.

## Funders Together Webinars

### [CO-SPONSORED WEBINAR: Funders Census Initiative Briefing Series: Census 2020 Messaging Testing Results](#)

The Funders Census Initiative is pleased to present the first three briefings on census messaging results in partnership with the Democracy Funders Collaborative Census Subgroup. This year, national field partners were funded to conduct get-out-the-count messaging research to identify messages that resonate with hard-to-count communities. Three of these national partners will be presenting their findings. As more national partners finalize their results, we will schedule additional briefings. ***Please come with your questions, we are leaving the majority of the hour for a robust discussion!***
