### [Community of Practice: Foundations for Racial Equity](#)

January 2019 - December 2020

Registration for our newest community of practice, Foundations for Racial Equity, closes December 14!

Through Foundations for Racial Equity, you will join other funders working at national and local levels to build relationships with peers, learn together about systemic racism in housing and homelessness, and lead the field in equitable solutions to end homelessness.

From January 2019 to December 2020, participants will meet twice a year in-person and convening virtually every month for training and peer coaching. The goals for the community are to understand how systemic racism in housing and homelessness continue to affect systems today and articulate a call to action for other funders on how to reduce racial inequities and the community will help direct the path and activities to reach those goals.

If you are interested in participating, you can [register here](#). For more information about the community of practice, view our [Foundations for Racial Equity informational webinar](#) or contact [Stephanie Chan](#), Director of Membership and Programs.
