## **Food for Thought - Thinking Points:**

**- *Profit-free health care* expands citizen freedoms - Health care that cares more about life than profit. Health care for every citizen - not just the ONE%. Health care that equally protects citizens from the uncontrollable vagaries of life for the good of all citizens.**

## **Alternative Word/Phrase:**

**- *Externalities* are byproducts of unfettered economic expansion that rob citizens of their health and freedom - The unresolved issues from endless progress whose external costs are shifted to citizens and killing Mother Earth and all her children**
