Corporate Sponsorship Guide
Dear Prospective Sponsor,

The GardenWorks Project is a registered 501c3 nonprofit, volunteer-led organization serving the western Chicagoland region. We empower, educate, and nourish families facing food insecurity with gardening opportunities and nutrition education throughout the growing season and beyond. We are the only organization doing work of this kind in the region and since 2012, we have counted on a volunteer, locally driven model to engage individuals and local businesses in the important work of improving hunger and food insecurity.

Over 74,000 residents in DuPage County are considered food insecure, and 1 in 8 children face hunger everyday in our community. Our organization is making an impact on everyday lives and building empowerment for the long-term, and we hope your company can participate in this honorable cause this year.

Your company’s sponsorship funds will help purchase supplies and materials for families facing food insecurity and create educational materials that will hopefully create a lifelong skill of growing food for themselves and for others. We are grateful for your consideration, and would be happy to answer any questions you may have. To a plentiful harvest!

Sincerely,

Jeannie Iseman
Executive Director
jeannie@gardenworksproject.org
