

GOONGERAH ENVIRONMENT CENTRE (GECO)

2021 SEPTEMBER CITIZEN SCIENCE WEEKEND COVID-19 SAFETY PLAN FOR ATTENDEES

Date created: 10 September 2021

Event dates: 24th, 25th, 26th September 2021

Review: 1 October 2021, or when there are any changes/updates to restrictions

Author: Chris Schuringa on behalf of Goongerah Environment Centre (GECO)

Contact: geco@geco.org.au

Due to current government restrictions in response to the COVID-19 pandemic, only people from regional Victoria will be able to attend this event. We ask that everyone read and agree to the requirements outlined in this safety plan.

Prior to the event we require that all attendees:

- Register online and provide full name, address, and contact details for all individuals attending (this information will not be kept for more than 30 days, as per government requirements)
- We highly recommend and would prefer if people are able to get a negative COVID test before arriving

During the event we require all attendees to:

- Always maintain 1.5 metre distance and wear masks, surveys and walks are out-doors, but everyone is still required to wear a mask
- Have their own personal supply of hand-sanitiser
- Travel in separate vehicles unless from the same household

During the event we will be in groups no greater than 10 to comply with current Victorian government restrictions. Individuals are responsible for complying with all government restrictions outside of surveying or forest walks.

Our organisation will:

- Sanitise all communal surveying equipment and provide hand sanitiser
- Keep a record of everyone's details for contact tracing purposes
- Brief all staff and volunteers with our organisations COVID-19 safety plan

If you are feeling unwell prior to the event, please get tested and stay home. For further information on current Victorian government health advice and COVID-19 restrictions please visit:

<https://www.coronavirus.vic.gov.au/coronavirus-covidsafe-settings>

This plan is subject to change at any time if there are changes in restrictions/government health advice
