

## Environmental Wellbeing

Firstly, we'd like to ask you about draft objectives related to Environmental Wellbeing.

1. How important is it to you that we...

	Very important	Important	Moderately important	Slightly important	Not important	Don't know / Not sure
Maintain accessible green spaces – in and around the city	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Improve Wellington's natural ecosystem	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Reduce the city's emissions, and create energy efficient facilities	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Reduce waste and reuse materials	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ensure we use sustainable and eco-friendly building and development practices	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Provide reliable drinking water, wastewater and stormwater networks	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

2. And how would you rank these objectives in order of importance to you?

- 3 × ▾ Provide reliable drinking water, wastewater and stormwater networks
- 5 × ▾ Reduce waste and reuse materials
- 2 × ▾ Ensure we use sustainable and eco-friendly building and development practices
- 6 × ▾ Maintain accessible green spaces – in and around the city
- 1 × ▾ Reduce the city's emissions, and create energy efficient facilities
- 4 × ▾ Improve Wellington's natural ecosystem

3. Thinking about the objective you ranked as the most important, please tell us why you selected that one

*We're experiencing a climate crisis and need to half our emissions by 2030. We need to prioritise taking a climate justice approach to reducing emissions.*

## Economic Wellbeing

Now, we'd like to ask you about draft objectives related to Economic Wellbeing

4. How important is it to you that we...

	Very important	Important	Moderately important	Slightly important	Not important	Don't know / Not sure
Ensure the CBD is the economic heart of the region	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Ensure Wellington's transport system is modern and reliable	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ensure there are several transport options for personal and commercial journeys	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Provide a thriving Māori economy through economic development opportunities	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Develop and support start-up businesses	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Rebuild Wellington's economy post COVID-19 restrictions	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

5. And how would you rank these objectives in order of importance to you?  
From 1 – most important to 6 – least important

6	Ensure the CBD is the economic heart of the region
1	Ensure Wellington's transport system is modern and reliable
2	Ensure there are several transport options for personal and commercial journeys
3	Provide a thriving Māori economy through economic development opportunities
5	Develop and support start-up businesses
4	Rebuild Wellington's economy post COVID-19 restrictions

6. Thinking about the objective you ranked as the most important, please tell us why you selected that one

*Wellington needs to encourage active and public transport to improve the health of our cities and people, make transport more equitable, free up space for development, and reduce emissions. Ensuring the CBD is the economic heart of the region should not be a focus of the Long Term Plan. Other centres in the region are being economically deprived by a Wellington-centric approach to regional development and this is not equitable. Economic wellbeing and opportunity needs to be distributed across the region to ensure the sustainability of other centres.*

## Social Wellbeing

7. How important is it to you that we...

	Very important	Important	Moderately important	Slightly important	Not important	Don't know / Not sure
Develop partnerships to ensure that Te Reo and Te Ao Māori are used throughout the city	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Provide an extensive annual events programme	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Provide grants and venues including museums, halls and libraries	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Preserve heritage buildings and sites of significance to mana whenua	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Support Wellington's creative talent to enhance the city's arts and culture scene	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8. And how would you rank these objectives in order of importance to you?  
From 1 – most important to 5 – least important

- 1  Develop partnerships to ensure that Te Reo and Te Ao Māori are used throughout the city
- 4  Provide an extensive annual events programme
- 2  Provide grants and venues including museums, halls and libraries
- 3  Support Wellington's creative talent to enhance the city's arts and culture scene
- Preserve heritage buildings and sites of significance to mana whenua

11. And how would you rank these objectives in order of importance to you?  
From 1 – most important to 5 – least important

- × ▼ Make sure our city is safe and accessible for children and young people
- × ▼ Connect our communities, creating resilience and a sense of identity
- × ▼ Support services and facilities that provide for older, disabled and vulnerable people
- × ▼ Provide residents with access to quality sport and recreation facilities
- × ▼ Make the city an affordable and resilient place to live

12. Thinking about the objective you ranked as the most important, please tell us why you selected that one

*Making the city an affordable and resilient place to live is critical. We strongly agree with connecting our communities and creating resilience, but are less supportive of the council working on developing a sense of identity for the city which will come naturally with good investment in making the city liveable. We support investment in recreation facilities but these need to be equitable and there needs to be a range of facilities to support a variety of recreation types - these also need to be affordable and accessible to everyone.*

13. Is there anything else you'd like to tell us about now as we develop our Long-term Plan?

*I, Eleanor West, am submitting this response on behalf of Generation Zero Wellington (wellington@generationzero.org.nz). Long term Investment decisions need to be made with a climate justice lens. Responding to the climate crisis and reducing emissions through creating a denser, more liveable city should be the priority.*
