Make All God’s Children a virtual VBS experience!

There are many ways in which you could translate this curriculum into a virtual experience. We are glad to provide a few ideas. Do whatever will work best for you and your community. If you have additional ideas on how to make this curriculum a success virtually, we would love to hear them!

We suggest doing these pieces of the curriculum for an experience that would take around 1 hour:

1. Gathering/storytelling
2. Country information (found in snack section), Faith tradition information, and kid’s letter (found in snack section)
3. Do one of the rotational activities (Craft, Game, Snack, Faith activity)
4. Closing

Many of these components could be done via Zoom (or other web-based meeting platform), or via pre-recorded videos sent to participants. You could also include this information in emails to parents/guardians as activities they could work into their own home schedules. If you decide to use Zoom, all pieces could be done together virtually, or you could meet for items 1, 2, and 4, and log-off for families to do item 3 together.

You may also want to share the remaining activities of each day with families in case they’d like to try the other activities on their own time. If you do decide to do this, it may be prudent to contact families a week ahead of time so they have an opportunity to gather resources they may need.

Please note what resources your families may or may not have to adjust your planning. For example, if a family does not have a printer, you may need to mail out any printed resources (like mandalas) ahead of time.

We hope that the All God’s Children curriculum will still be engaging and fun, even if done virtually. We are grateful for the work you do to help children engage with the Bible and God’s children around the world.
