

At Global Sorority we pride ourselves on our community. We aim to increase our outreach in the world to foster the abilities of young female leaders, so they can thrive in their communities.

By bringing together individuals, businesses and organizations to create a greater community, we can provide young women with all the resources they need to live to their full potential in the world.

When you support our existing initiatives or partner with us to create greater outreach, you are creating a legacy and investing in individuals who will change our world.

Here are some ways you can do that:

Corporate partner

When you become a corporate partner you invest in the leadership development of young woman who need you to support the foundation to their success. We in turn become your ambassadors to the community.

Check out the companies who are already benefiting from becoming Global Sorority community partners.

Community partner

When you become a community partner, you bring the Elements of SUCCESS leadership program into your organization or school and we support young women to maximize the resources you provide, while building on their emotional intelligence, resiliency, literacy, and positive community service.

In addition to our partnerships we often have volunteer opportunities so you can continue to develop and use your gifts to create impact in the lives of young women. For more information please contact us.
