

Why vote YES on Amendment 73?

Colorado has one of the fastest growing economies in the country, yet we spend roughly **\$2,800 less than the national average** on each student, and the majority of our **school districts have teacher shortages** because Colorado has the least competitive teacher wages in the country.

We can't forget that **strong public schools are the backbone of healthy communities**, preparing students to be good citizens and make positive contributions.

Amendment 73 will give schools the funding they desperately need by creating a new revenue stream for local school districts that politicians and bureaucrats in Denver can't raid.

Right now, middle and low income households pay MORE of their income in state and local taxes than the highest income households. **Amendment 73 will begin to bring balance to our upside down tax code by having the wealthy, the top 8%, pay what they should.**

Need details of the proposal, information about how Amendment 73 directly helps local school districts, and information about how to volunteer?
