

## Why vote YES on Amendment 73?

Colorado has one of the fastest growing economies in the country, yet we spend roughly **\$2,800 less than the national average** on each student, and the majority of our **school districts have teacher shortages** because Colorado has the least competitive teacher wages in the country.

We can't forget that **strong public schools are the backbone of healthy communities**, preparing students to be good citizens and make positive contributions.

**Amendment 73 will give schools the funding they desperately need by creating a new revenue stream for local school districts that politicians and bureaucrats can't raid.**

Right now, middle and low income households pay MORE of their income in state and local taxes than the highest income households. **Amendment 73 will begin to bring balance to our upside down tax code by having the wealthy, the top 8%, pay what they should.**

Need details of the proposal, information about how Amendment 73 directly helps local school districts, and information about how to volunteer?
