

October 15, 2018

To whom it may concern:

Together Colorado is a faith-based organization engaging over 220 faith leaders and faith communities across the state, working to put human dignity at the center of public life in Colorado. Committed to pursuing the wellbeing of our families and our children, we whole-heartedly endorse Amendment 73. This amendment to our constitution will provide much needed resources to our public education system, allowing those responsible for that system (our Boards of Education across the state) to provide the best quality education possible for all our children, strengthening our communities and our future.

Our various faith traditions are clear in their call to care for the children in our midst. We are counting on you today to act decisively to further the wellbeing of our children and families in Colorado.

For the good of all our children,

(See signatures attached.)
