

## San Francisco Green Film Festival presents First 100 Days: Green Film Guide

*The film-lover's guide to taking environmental action in the first 100 days of the new White House administration.*

With threats to roll-back environmental regulations and international climate programs, San Francisco Green Film Festival has curated a weekly guide of environmental documentaries from our archive to arm us all with the knowledge, ideas, and inspiration to resist Trump's environmental agenda.

Together we'll watch and learn from the people taking on the climate deniers, standing up to power and offering up new solutions.

On Inauguration Day, January 20, the **First 100 Days: Green Film Guide** will be launched with the **YOU'VE BEEN TRUMPED TRILOGY** from director Anthony Baxter.

Since the first film, **YOU'VE BEEN TRUMPED** (SFGFF Best Feature Award 2012), Baxter has taken great risks to penetrate the ongoing operation of Donald Trump and his designs to take away people's homes, land and water for his destination golf course in Scotland. The second film **A DANGEROUS GAME** (SFGFF 2014), charts the eco-impact of luxury golf resorts around the world.

### Special Screenings

January, 20: San Francisco Green Film Festival will host an exclusive screening of **YOU'VE BEEN TRUMPED TOO** (dir. Anthony Baxter, 2016), following the ongoing battle of a feisty 92-year-old Scottish widow and her family to get Trump to give them back their access to water. 12pm at Ninth Street Independent Film Center.

February 21: To mark the first month, there will be a screening of **MERCHANTS OF DOUBT** (dir. Robert Kenner, 2014) with special guests. The film exposes the spin tactics learned in the tobacco industry and now being used against the environmental movement. 7pm at Roxie Theater.

The **First 100 Days: Green Film Guide** will culminate with new films at **Green Film Fest 2017**, April 20 - 26. Full schedule announced March 22, 2017.
