GREENLATINOS OPPOSES TRUMP EXECUTIVE ORDERS ON IMMIGRANTS, REFUGEES, AND THE BORDER
WASHINGTON, DC – Today, President Trump announced the issuance of executive orders on a border wall, financial retribution upon sanctuary cities, and a targeted ban against Muslims. **In reaction to the announcement, GreenLatinos issued the following statement:**

GreenLatinos stands with our partners in the immigrant rights and civil rights advocacy communities in opposing President Trump’s illegitimate actions today. GreenLatinos has fought hard for years against misguided border security measures that are specifically aimed at rescinding environmental, antiquities, public input, and other important regulations. Since President Trump has demonstrated hostility toward the environment, antiquities, and public input, we have no doubt that his policies will be consistent in its injustice.

Further, an Executive Order proclaiming a ban on Muslims is outrageous if not surprising from a man who once said that a federal judge could not be impartial because of his family heritage. When Mr. Trump attacks any community, he attacks us all.
